

Charities Appeals Supplement

The Charities Appeals Supplement continues to help develop fundraising revenue streams for charities through legacies, corporate support and donation. This section is written by charities detailing their appeals. It is easy to use with a categorised index below and an A–Z index at the end.

If your client is considering leaving a legacy to charity, please encourage them to browse through the appeals when making that important decision. Please mention the Charities Appeals Supplement when contacting a charity.

The team at the Charities Appeals Supplement would like to thank you for your continuing support; especially those who have left legacies to our featured charities over the last year.

INDEPENDENT DIABETES TRUST 

Do you have Diabetes? Do you know someone with Diabetes?

As a small charity with a big mission
WE NEED YOUR HELP...

We offer free support and information to people with diabetes, their families and health care professionals on the issues that are important to them.

Our Helpline offers a friendly, understanding ear when the going gets tough. Your help will enable us to continue to support people with diabetes and provide much needed aid to children in developing countries.

We rely entirely on voluntary donations. So, if you are thinking about making a donation to charity, or updating your Will, please consider a gift to help us continue our work. Please make donations to "Diabetes Trust Research and Care Fund."

THE BENEVOLENT FUND FOR NURSES IN SCOTLAND

THE FUND WHICH WAS STARTED IN 1925 IS STILL NEEDED TODAY

The Fund for Nurses was established to give assistance to members of the profession who have trained or worked in professional posts in Scotland.

Financial grants are given to:

- Individuals of any age who are experiencing financial difficulties due to their inability to continue working.
- Retired members of the profession who receive little or no pension.

Sadly more and more nurses are finding it necessary to seek our help and through your generosity, we are able to offer additional support in the form of single grants to those less fortunate members of our profession.

The Fund is administered by a Committee of Trustees, most of whom are members of the nursing profession.

Donations may be sent to the Secretary at the Registered Office

Will you remember
the horses at
Redwings
Horse Sanctuary?

Remember Redwings in your Will and save the lives of hundreds of horses in desperate need for years to come.

Call **01508 481030** or email legacies@redwings.co.uk to find out how to leave a legacy today.

Thank you

If you
love horses,
remember them!

If you believe in reincarnation there are some animals you wouldn't want to be

Imagine a life of imprisonment in a cramped cage and being the subject of constant experimentation; a lifetime of suffering followed by a painful death. That's the cruel and futile fate suffered by millions of laboratory animals in the name of research.

The National Anti-Vivisection Society (NAVS) is the world's premier and leading group, working for an end to the suffering of animals in laboratories.

Working within the law, we lobby Parliament, produce scientific reports, educational materials and videos; conduct undercover investigations and expose law breaking. We fund non-animal scientific and medical research.

Please help us to help laboratory animals by making a bequest today to the National Anti-Vivisection Society, Vox Studios North, 1 Durham Street, London SE11 5JH

For a free guide to making a will to help laboratory animals call us today on 020 7630 3340 or visit www.navs.org.uk

We've been standing up for wildlife for over 40 years.

With the help of scientists, conservationists, landowners, government, and the general public, we're protecting our delicately balanced ecosystem by bringing our most threatened species back from the brink.

Last year, over a third of our income came from legacy gifts, allowing us to protect wildlife for generations to come.

Have you thought of including Blood Pressure UK in your Will?

A lasting way to help others with high blood pressure

Finding out that you have high blood pressure can be traumatic, particularly if you are young. Most people don't know anything about the condition and worry about how it will affect them and those around them.

Blood Pressure UK

Helping you to lower your blood pressure

Blood Pressure UK is here to help. With our information packs, range of leaflets and our helpline, we provide reassurance and support to those who need it. All of this work is expensive, and while membership subscriptions and donations help enormously, leaving a gift in your Will can help us make a bigger difference.

Leaving a gift isn't as complicated as you might think. It doesn't have to be a large amount, and it will give you the assurance that our work will continue long into the future.

Obviously, providing for your family and friends comes first, but once that is done please consider leaving a gift to Blood Pressure UK in your Will.

We have put together a simple leaflet to guide you through the process. You can get a copy by telephoning (020) 7882 6255, visiting our website at www.bloodpressureuk.org or by writing to Blood Pressure UK, Wolfson Institute, Charterhouse Square, London, EC1M 6BQ.

Last year we helped over 80,000 wild hedgehogs, birds and animals like Rudolph

Please help me get better

Come and have a look around our Visitor Centre

Opening times can be found on our website www.tiggywinkles.com

is the busiest wildlife hospital in the world

Not only do we treat more hedgehogs than any other wildlife hospital, but our caring team saves lives every single day. Our aim is simple; to treat all injured British wild birds and animals, then return them to the wild. Like Rudolph, who arrived badly injured at just five days old. The road accident that killed his mother left him with three badly broken legs. Our specialist care saved this poor little deer from suffering and he is now facing a brighter future. But it is only with your support that we can help casualties like Rudolph, so please remember Tiggywinkles when making your Will.

Our dear late friend Dame Thora Hird was an ardent supporter of our work. She actively encouraged others to help us secure funding for our lifesaving work to continue. Your legacy will ensure helps is always at hand for all British wildlife; in Dame Thora's own words,

"All the little wild creatures and I thank you so very much".

changing lives for the better

For 40 years, u3a has been providing older people with life-changing experiences.

By providing a gift in your will, you will support fantastic opportunities for future generations of older people for many years to come.

From learning new skills, joining interest groups and forging new friendships, for a very low annual cost the u3a movement ensures there is no need for anyone to be lonely.

Marian from Saxon Shore u3a in Kent explains the impact u3a has had on her life.

“At the age of 60 my husband left me, leaving me devastated. Luckily, I plucked up courage to go along to my local u3a, and I haven’t looked back.

I encountered a host of lovely, friendly folk who encouraged me to join in various activities and groups and I have made some fabulous, long-lasting friendships.

Thank goodness for the u3a.”

To find out more about leaving a gift in your will to the Third Age Trust which supports u3a across the UK, visit u3a.org.uk/legacy-giving

Help Finance An Evolution

Will you leave a lasting legacy of compassion and help scientific advancement? The Lord Dowding Fund finances scientific and medical research without the use of animals. We believe that cruel animal techniques have no place in 21st century science.

We have supported major advances in many fields including neuroscience, cancer research, and safety testing – we developed a humane British Standard Test for the toxicity of dental fillings. Your legacy could help save the lives of animals and advance scientific research.

Help finance an evolution in medical science and leave a lasting legacy, with a bequest today to the:

Lord Dowding Fund,
Vox Studios North, 1 Durham Street, London SE11 5JH

Over 200 years of caring for the needs of artists and their dependants

The ABF are proud to have served the artists' community for over 200 years and now we have launched a new grant scheme to support working artists at key moments in their careers.

The ABF believes that many talented artists face great difficulties in sustaining and developing their careers. Our grant scheme is designed to support artists who can demonstrate how an award can assist them in consolidating and continuing their career as a professional artist.

The scheme will make it possible for artists to seize creative opportunities and develop their work for the future.

Please help us to continue to our work with the existing beneficiaries and to make funds available to other artists in times of need.

Medical research and welfare

Blood Pressure UK is the UK's leading charity dedicated to lowering the nation's blood pressure to prevent disability and death from stroke and heart disease. Since October 2000 we have been making a real difference to the 16 million people affected by high blood pressure in the UK.

We work to ensure that high blood pressure is at the top of everyone's health agenda: within the Government, among health professionals, in the media and for every adult in the UK. Our vision is that everyone will know their blood pressure numbers, in the same way that they know their height or weight, and take steps to keep them healthy both now and in the future. High blood pressure can be treated and prevented.

Blood Pressure UK relies on donations and legacies. Your invaluable support will help to ensure they continue its important work and make a vital difference to the lives of those at risk from the effects of high blood pressure.

Registered charity no: 265985

Medical research and welfare

The Cancer Prevention Research Trust's dream is to create a better world without cancer and to promote a healthier lifestyle for all. Since its inception in 1973, the Cancer Prevention Research Trust has supported pioneering research into the prevention of this serious disease.

There is nothing more important to us or to future generations than a world without cancer, so including us in your Will is a very effective way to be part of our continuing work and will help us pursue our dream.

Friends of the Animals

17a Riverway
Newport
Isle of Wight
PO30 5UX
T: 01983 522 511
W: www.friendsoftheanimals.co.uk
Registered charity no: 1000249

Animals and birds / Education

Your wish to help animals will be assured by including a gift in your will to "Friends of the Animals". Concentrating on 'preventative' work such as spays, neuters, inoculations and free engraved discs; we never destroy a healthy animal, and keep admin costs to a minimum. Veterinary prices have rocketed and our goal is to employ our own Vet.

To advertise in the Charities Appeals Supplement, please contact:

advertisingsales@lexisnexis.co.uk

We have:-

- ▶ Re-homed 9,760+ animals.
- ▶ Spayed/neutered 43,000+ animals.
- ▶ Built stables for donkeys and ex-pit ponies.
- ▶ Currently funding 450+ rescued farm animals.
- ▶ Distributed over 1,829,000 items of pet food.
- ▶ Supplied almost 20,000 engraved, identity discs FOC.
- ▶ Given numerous educational talks on animal welfare.
- ▶ Wormed and inoculated thousands of animals – many for the first time in their lives!
- ▶ Stepped in to ensure food, safety and new homes for 97 Urban Farm animals, when their owner went out of business.

The majority of animals that come into our care arrive in a poor state. Our reward is seeing those same animals go to their new homes a few weeks later: well fed, groomed, wormed, inoculated and neutered.

VETERINARY TREATMENT is invariably our biggest outgoing.

You have many choices of Charities to support but no one appreciates it more – or tries harder than we do – to get the very best possible from every penny donated.

Your help today will ensure a happier tomorrow for countless animals. I send my grateful thanks.

Lord Dowding Fund (LDF) supports and promotes advanced methods of scientific and medical research for testing products and curing disease, which replace the use of animals. The LDF educates and promotes adoption of advanced techniques. Grants awarded to researchers working in a wide range of fields, including breast and lung cancer, microsurgery, Parkinson's disease, cataracts, cot deaths, product safety testing, kidney research, schizophrenia, biotechnology, hepatitis B, pain, infertility, tissue engineering and vascular disease.

By making a bequest to the Lord Dowding Fund you can support solid, scientific medical research that can save animals and help people.

Thank you.

Registered Charity in England and Wales (263710)

and in Scotland (SC002327)

[Social services and welfare](#)

Britain is in a housing crisis. Times are tough, rents are rising, and many families are struggling to keep a roof over their heads, let alone get on the property ladder. For others, redundancy or illness can make people fall behind on the rent or mortgage. And every day, millions of people wake up in housing that's run down, overcrowded or dangerous.

At Shelter, we hear from people suffering from health problems and mental health issues, such as depression and stress, and families whose children are missing out on their education or are being bullied – all as a result of bad housing or homelessness.

That's why we provide free, confidential advice and support via our website, helplines, and face to face local services. We help people to find and keep a home in a place where they can thrive, and we tackle the root causes of bad housing by campaigning for new laws, policies and solutions.

Shelter believes everyone should have a home

To continue this work, we rely heavily on the gifts that supporters leave us in their wills. That's why remembering Shelter in your will is one of the most important ways that you can help.

For your guide to including Shelter in your will, please call Katie Small directly on 0344 515 1746 or email legacies@shelter.org.uk.

Visit www.shelter.org.uk/legacy for more information.

For 40 years, the u3a movement has been providing older adults with life-changing opportunities and experiences. At a time when social isolation across all generations is a huge problem, u3a offers a low-cost and fun way for those no longer in full-time work, to learn something new, share skills and forge lasting friendships in a relaxed and informal way.

u3a gives a warm welcome in a world which has seen far too many older people cut off from society in recent years. Although we are a comparatively small organisation we make a big difference to people's lives by inspiring confidence in older age. People tell us that

u3a has made them feel valued and supported in new communities, has made them feel less lonely, and enabled them to enjoy their life once again.

We do this through our UK-wide network of local u3as, run by members who volunteer their time to offer a wide range of activities from Walking to Talking, Geology to Genealogy, and Climate Change to Crafting to name a few.

The u3a movement is a family, connecting across geographical boundaries through things like our online learning events, our quarterly magazine, our monthly newsletter and even a radio podcast which is produced by members.

Help us keep making a difference by leaving u3a a gift in your will and supporting the many fantastic opportunities for future generations of older adults for many years to come.

Tiggywinkles – the Wildlife Hospital Trust

W: www.tiggywinkles.com

President: The Countess of Buckinghamshire

Registered charity no: 286447

[Animals and birds / Conservation / Education](#)

Here at Tiggywinkles, we are dedicated to rescuing and rehabilitating British wildlife. We are open 24hrs a day, 7 days a week to help any wild animal in need and our service is free of charge. We rely on donations to provide our life-saving care for patients like Robbie the robin, who arrived in our care under unusual circumstances!

As the World’s leading teaching wildlife hospital, we have lots of students on site and one of our Level Two Animal Care students found Robbie on the pathway of our grounds. She immediately realised he needed help as he was lying flat and couldn’t fly. She rushed him into triage and our duty nurse quickly assessed his condition.

Sadly, Robbie was suffering from temporary ataxia – the loss of coordination and control of movement – and the team suspected he had sustained head trauma. To treat his symptoms, our vet put Robbie on a short course of antibiotics and pain relief. After one week of treatment, Robbie was once again flying around his cage and was ready for release.

We are so happy that we could help this beautiful bird back to the wild and although we never want any wild animal to find itself in trouble, it is nice to think that they know where to come, should they ever need help! Our doors are always open to any wild animal in need, even walk-ins!

To help us care for patients like Robbie, please consider donating. We receive no government or lottery funding, so we need your help – every penny helps us help them!

BRIEFED
Honesty Box

Charity begins at Briefed

Our 'Honesty Box' Initiative helps charities reduce their data risk

Briefed is on a philanthropic mission to help charities and the third sector in the UK/Ireland protect themselves and their data – at a budget they can actually afford.

Unfortunately, social purpose organisations are at high risk of data breaches, regulatory sanctions, reputational damage and even prohibitive fines. Although they recognise the need for data protection training, many often lack the resources and budget to upskill their teams to the required standard.

Through our 'Honesty Box Initiative' we provide top-quality training for staff at different levels in order to reduce the risk of data breaches and subsequent consequences. Importantly, it is provided at a price that charities can reasonably afford.

Speaking about 'Honesty Box', Orlagh Kelly comments:

"We wanted to do something with purpose, to give back to those in the third sector by offering up our expertise and skills to further enhance their business offering. We came up with the idea of the 'Honesty Box'.

It's our way of delivering high level training to enterprises who can use it to protect themselves GDPR-wise and demonstrate their compliance should a data breach occur."

How the 'Honesty Box' works

The initiative empowers charities and social enterprises to understand and manage legal risks and responsibilities while maximising competitive advantage. Moreover, all training is designed and led by Briefed's team of experienced barristers.

1. The Charity identifies how many people need to be trained and to what standard
2. The Charity decides how much they can afford to pay for training and makes an offer to Briefed
3. Briefed accepts all reasonable offers and ensures staff are trained to the correct standard.

4. Support is delivered as part of a 3-year framework (or as little as one year).

One of the first social enterprise companies to benefit is the **'NOW Group'**, which helps people with barriers to employment and learning into the workforce. (<https://getbriefed.com/honesty-box/>)

Maeve Monaghan, Chief Executive, explains:

"As a social enterprise, we want to be doing everything to the best of our ability, which includes access to the best training for our employees. The reality is, this often exceeds our budget. However, Briefed's 'Honesty Box' makes this possible.

Like many businesses, we operate online. So, it's imperative that our staff are educated and trained to stay up to date on any legislative changes, remain GDPR compliant, and through being certified, have access to Briefed's support clinic should they need advice."

Briefed is keen to reach as many charities as possible. That's why we're calling on barristers and chambers to put forward suggestions for charities they're affiliated to and who may benefit. They will also have the opportunity to sponsor the training of a charity/social enterprise that is particularly close to their heart.

Orlagh concludes:

"We also want to thank all our existing clients for their ongoing support. They make our 'Honesty Box' Initiative achievable. We can only support charities because you continue to trust Briefed with your compliance training needs."

Please email Orlagh at hello@getbriefed.com with your suggestions.
