

Charities Appeals Supplement

The Charities Appeals Supplement continues to help develop fundraising revenue streams for charities through legacies, corporate support and donation. This section is written by charities detailing their appeals. It is easy to use with a categorised index below and an A–Z index at the end.

If your client is considering leaving a legacy to charity, please encourage them to browse through the appeals when making that important decision. Please mention the Charities Appeals Supplement when contacting a charity.

The team at the Charities Appeals Supplement would like to thank you for your continuing support; especially those who have left legacies to our featured charities over the last year.

INDEPENDENT DIABETES TRUST 

Do you have Diabetes?

Do you know someone with Diabetes?

As a small charity with a big mission
WE NEED YOUR HELP...

We offer free support and information to people with diabetes, their families and health care professionals on the issues that are important to them.

Our Helpline offers a friendly, understanding ear when the going gets tough. Your help will enable us to continue to support people with diabetes and provide much needed aid to children in developing countries.

We rely entirely on voluntary donations. So, if you are thinking about making a donation to charity, or updating your Will, please consider a gift to help us continue our work. Please make donations to "Diabetes Trust Research and Care Fund."

THE BENEVOLENT FUND FOR NURSES IN SCOTLAND

THE FUND WHICH WAS STARTED IN 1925 IS STILL NEEDED TODAY

The Fund for Nurses was established to give assistance to members of the profession who have trained or worked in professional posts in Scotland.

Financial grants are given to:

- Individuals of any age who are experiencing financial difficulties due to their inability to continue working.
- Retired members of the profession who receive little or no pension.

Sadly more and more nurses are finding it necessary to seek our help and through your generosity, we are able to offer additional support in the form of single grants to those less fortunate members of our profession.

The Fund is administered by a Committee of Trustees, most of whom are members of the nursing profession.

Donations may be sent to the Secretary at the Registered Office

If you knew animals were being abused, could you rest in peace?

Sadly, throughout their lives, the last thing many animals experience is peace. Pepe the spider monkey, for example, was chained by his neck and imprisoned in a circus. They snapped off his canine teeth and kept him in isolation.

He was one of the lucky ones because he was rescued by Animal Defenders International (ADI). He can now live in peace with his own kind. ADI is a major international force in animal protection.

Please help us to help other animals like Pepe to live in peace by making a bequest today to Animal Defenders International.

For a free guide to making a will to help stop animals being abused call us today on 020 7630 3340 or visit www.ad-international.org

Animal Defenders International
Vox Studios North, 1 Durham Street
London, SE11 5JH

If you believe in reincarnation there are some animals you wouldn't want to be

Imagine a life of imprisonment in a cramped cage and being the subject of constant experimentation; a lifetime of suffering followed by a painful death. That's the cruel and futile fate suffered by millions of laboratory animals in the name of research.

The National Anti-Vivisection Society (NAVS) is the world's premier and leading group, working for an end to the suffering of animals in laboratories.

Working within the law, we lobby Parliament, produce scientific reports, educational materials and videos; conduct undercover investigations and expose law breaking. We fund non-animal scientific and medical research.

Please help us to help laboratory animals by making a bequest today to the National Anti-Vivisection Society, Vox Studios North, 1 Durham Street, London SE11 5JH

For a free guide to making a will to help laboratory animals call us today on 020 7630 3340 or visit www.navs.org.uk

Will you remember
the horses at
Redwings
Horse Sanctuary?

Remember Redwings in your Will and save the lives of hundreds of horses in desperate need for years to come.

Call **01508 481030** or email legacies@redwings.co.uk to find out how to leave a legacy today.

Thank you

If you
love horses,
remember them!

Last year we helped over 80,000 wild hedgehogs, birds and animals like Rudolph

Please help me get better

Come and have a look around our Visitor Centre

Opening times can be found on our website www.tiggywinkles.com

is the busiest wildlife hospital in the world

Not only do we treat more hedgehogs than any other wildlife hospital, but our caring team saves lives every single day. Our aim is simple; to treat all injured British wild birds and animals, then return them to the wild. Like Rudolph, who arrived badly injured at just five days old. The road accident that killed his mother left him with three badly broken legs. Our specialist care saved this poor little deer from suffering and he is now facing a brighter future. But it is only with your support that we can help casualties like Rudolph, so please remember Tiggywinkles when making your Will.

Our dear late friend Dame Thora Hird was an ardent supporter of our work. She actively encouraged others to help us secure funding for our lifesaving work to continue. Your legacy will ensure helps is always at hand for all British wildlife; in Dame Thora's own words,

"All the little wild creatures and I thank you so very much".

Helping Artists Thrive

We support emerging visual artists to overcome barriers and flourish creatively and professionally.

Artists Futures Fund supports talented individuals facing significant barriers to careers in the arts.

We prioritise emerging artists experiencing economic hardship, disability and mental-health challenges, ensuring creative careers are accessible to those traditionally excluded.

Our support includes place-based fellowships, bursaries, mentoring, exhibitions, networking and professional development. Through partnerships with selected education and cultural organisations across the UK, we work to remove systemic barriers and help emerging artists build sustainable creative careers.

Our core mission is to open doors to diverse and exciting futures in the arts.

We believe that in a period of financial constraint, protecting artistic talent is an investment in the UK's creative future. We are actively seeking donations so we can expand our support for talented artists in need.

Please visit www.artistsfuturesfund.org to learn more about leaving a legacy to Artists Futures Fund or how to donate today. Thank you.

Artists Futures Fund is the working name of The Society for the Management and Distribution of The Artists Fund. Formerly known as the Artists' Benevolent Fund. Registered charity no: 270585.

SUPPORTING MILITARY CARERS

Supporting adult family members of physically or psychologically injured British serving personnel or veterans

Find out more:
www.theripplepond.org

SUPPORTING FAMILIES STRENGTHENING FUTURES

Behind every physically or psychologically injured service person or veteran is a family navigating life after injury alongside them.

Every day, spouses, partners, parents and children help loved ones cope with PTSD, anger, pain, nightmares, suicidal thoughts and complex treatment pathways. Much of this happens behind closed doors, leaving families feeling isolated and overwhelmed.

The Ripple Pond provides a vital lifeline. We connect families with others who understand their experiences, offer peer support, one-to-one support during times of crisis, and referrals to trusted therapeutic services. We also provide wellbeing workshops, resources and activities that help families feel less alone.

Demand for our support is growing, but the funding landscape is changing.

Your donation will help ensure that military families facing some of life's toughest challenges continue to have somewhere to turn for understanding, support and hope.

Please donate today. Together, we can ensure no military family faces these challenges alone.

DIRECTORY OF COURSES FOR SEPARATED PARENTS

A long-standing issue in family justice can now be resolved, thanks to recently launched charity the Separated Parenting Programme Directory (SPPD)

Courts, Cafcass, mediators and family lawyers regularly encourage parents to engage with parenting programmes following separation or divorce. However, there has historically been no central, independent resource enabling professionals to identify what programmes are available, what they offer, what they cost, and whether they meet recognised standards. SPPD provides a practical solution to fill the gap—a national directory of quality-assured separated parenting programmes.

Yasmin Khan-Gunns, senior associate, Keystone Law and trustee of SPPD, said the directory gives professionals a 'single, trusted resource' they can rely on when supporting families through separation.

Parenting programmes come in a variety of shapes and forms, both online and in-person, in groups or one-to-one, short courses, support sessions or longer courses and can be either facilitator-led or self-guided with expert guidance on hand. They offer parents

practical tools, fresh perspectives and a neutral space where they can work out how best to focus on their children's wellbeing. Crucially, each one featured in the directory must adhere to a set of standards governing quality and safe practice.

James Evans, head of strategic growth at Nova Law and trustee of SPPD, said: 'Too often there has been uncertainty about what support is available and whether it meets consistent standards. SPPD is a genuinely practical step forward. Ultimately, this is about improving outcomes for children by reducing conflict and helping families navigate separation in a more informed, supported way.'

The charity, which launched in December 2025, aims to support early, non-court intervention by enabling professionals to signpost parents to appropriate programmes without endorsing individual providers. It aims to promote conflict-reduction and child-focused approaches within or outside of litigation, and to improve quality, consistency and transparency around parenting programme provision.

Heather Rutherford, founder of The Parenting Partnership, said: 'The directory brings together a broad range of quality assured programmes, making it easier for parents to access the right support at the right time and helping them keep their children's wellbeing at the heart of all their choices and decisions, during separation and in the years that follow.'

Animals and birds

Animal Defenders International (ADI) works worldwide to protect animals and the environment. Our investigations of wildlife trafficking, animals in circuses, animal experimentation and more drive awareness, education, legislation, and prosecutions.

ADI offers practical solutions, like advanced techniques to replace animals in research, and support for governments enforcing animal protection laws, such as bans on animal circuses – in Bolivia, Colombia, Peru and Guatemala, ADI tracked down and rescued every circus animal including bears, monkeys, lions, and tigers.

Many of these lions and tigers now enjoy natural habitats at the ADI Wildlife Sanctuary, South Africa and we have supported sanctuaries in Latin America, USA and Europe.

Please help with a bequest to Animal Defenders International.

distress or in difficulties.

During the recent past we have helped barristers and their families in every circuit, often saving not only dignity but careers. Our staff are experienced, kind and practical; our Association is a last safety net for those struck down, their partners and their children, where there is no income, capital or family back up.

We are a charity and rely on fundraising and donations from Chambers and individual barristers so please consider supporting us if you can.

We believe that almost every member of the practicing Bar can afford to donate at least a sum equivalent to one hour of their charging rate without feeling a real difference.

If you agree please support us by visiting our website at the-bba.com/support-us/

services and welfare / Trades and professions

Artists Futures Fund supports talented individuals to overcome barriers and flourish creatively and professionally. Operating under a Royal Charter since 1827, and originally founded by a collective of philanthropists, AFF is proud to have served the UK's artists' community for over 200 years.

Today, we support emerging artists to overcome significant socio-economic, physical and mental health barriers that would prevent them from pursuing careers as artists. By investing in diverse creative talent with bursaries to support living costs and offering exhibition, mentoring and professional development opportunities, our mission is to enrich the UK's cultural landscape and promote a more inclusive and innovative future for the arts.

We believe that in a period of financial constraint, protecting artistic talent is an investment in the UK's creative future. We are actively seeking donations so we can expand our support for talented artists in need.

E: cprt45@yahoo.co.uk

W: www.cancerpreventionresearch.co.uk

Registered charity no: 265985

Medical research and welfare

The Cancer Prevention Research Trust's dream is to create a better world without cancer and to promote a healthier lifestyle for all. Since its inception in 1973, the Cancer Prevention Research Trust has supported pioneering research into the prevention of this serious disease.

There is nothing more important to us or to future generations than a world without cancer, so including us in your Will is a very effective way to be part of our continuing work and will help us pursue our dream.

Friends of the Animals

17a Riverway
Newport
Isle of Wight
PO30 5UX
T: 01983 522 511
W: www.friendsoftheanimals.co.uk
Registered charity no: 1000249
[Animals and birds / Education](#)

Your wish to help animals will be assured by including a gift in your will to "Friends of the Animals". Concentrating on 'preventative' work such as spays, neuters, inoculations and free engraved discs; we never destroy a healthy animal, and keep admin costs to a minimum. Veterinary prices have rocketed and our goal is to employ our own Vet.

We have:-

- ▶ Re-homed 9,760+ animals.
- ▶ Spayed/neutered 46,000+ animals.
- ▶ Built stables for donkeys and ex-pit ponies.
- ▶ Currently funding around 500 rescued farm animals.
- ▶ Distributed over 1,829,000 items of pet food.
- ▶ Supplied almost 20,000 engraved, identity discs FOC.
- ▶ Given numerous educational talks on animal welfare.
- ▶ Wormed and inoculated thousands of animals – many for the first time in their lives!
- ▶ Stepped in to ensure food, safety and new homes for 97 Urban Farm animals, when their owner went out of business.

The majority of animals that come into our care arrive in a poor state. Our reward is seeing those same animals go to their new homes a few weeks later: well fed, groomed, wormed, inoculated and neutered.

VETERINARY TREATMENT is invariably our biggest outgoing.

You have many choices of Charities to support but no one appreciates it more – or tries harder than we do – to get the very best possible from every penny donated.

Your help today will ensure a happier tomorrow for countless animals. I send my grateful thanks.

Helen Sinclair MBE (Awarded for 'Services to animal welfare')
Founder

Diabetes can cause blindness, kidney failure, nerve damage and heart attack that severely affect the lives of all those living with diabetes. A cure for diabetes is still illusive so the Trust supports research that will help to improve the daily lives of people living with diabetes now.

The studies we support involve people with diabetes under normal treatment conditions to ensure that it reflects 'real life' conditions.

We also collate information from the experiences of people with diabetes to help to inform others.

We collect unused, in-date insulin to send to clinics in developing countries where people die for lack of affordable insulin.

Please help us to continue our work, making cheques payable to 'Diabetes Trust Research and Care Fund'.

National Anti-Vivisection Society

Vox Studios North

[Animals and birds / Medical research and welfare](#)

Founded 1875, the National Anti-Vivisection Society (NAVS) is the world's premier society working to end the suffering of animals in laboratories. We educate and promote the replacement of animal experiments with sophisticated, non-animal methods. NAVS studies include legal and scientific research and critiques, investigations of laboratory practices, reports, videos. NAVS supports the replacement of animals with advanced, non-animal, scientific and medical research.

Every year millions of animals suffer and die in cruel and unreliable experiments.

Please consider remembering the NAVS in your Will to end the suffering, and press for introduction of advanced techniques, relevant to people.

Thank you.

Independent Diabetes Trust

PO Box 294
Northampton

Registered charity no: 1058284

[Medical research and welfare](#)

The Trust was set up in 1994 by people with diabetes for people with diabetes. We offer support and understanding to those with diabetes and their families. We provide a free telephone listening service and information leaflets to enable people with diabetes to have an informed choice of treatment and to help with the day to day difficulties of living with diabetes.

Around three quarters of a million people in the UK have insulin requiring diabetes and the incidence of diabetes in children is increasing. It is essential that we support research to help this very vulnerable group faced with a lifetime of diabetes. Your support will enable us to further develop our programme to help children and provide information for teachers about the needs of children with diabetes.

Redwings Horse Sanctuary

Hapton
Norwich

E: legacies@redwings.co.uk
W: www.redwings.org.uk
Registered charity no: 1068911

[Animals and birds](#)

Redwings believes that every horse, pony, donkey and mule has the right to a happy and healthy life, free of fear and neglect.

The 100% publicly funded charity rescues neglected and abandoned horses from all over the country, giving them a safe place to live for the rest of their days, and is currently home to over 1,500 – making Redwings the UK's largest horse sanctuary.

As well as providing a place of sanctuary to rescued horses, Redwings has five visitor centres in England and Scotland that enable supporters to see how their kind donations really can make a difference to horses and donkeys in need.

Redwings' Aylsham Visitor Centre in North Norfolk was funded by the gifts people had left in their Wills and has been vital in enabling the charity to continue to provide homes for the increasing number of abandoned horses in desperate need of love and care.

Gifts in Wills make up the largest proportion of Redwings' income and the charity simply wouldn't be able to exist without them. Remembering Redwings Horse Sanctuary in your Will is a wonderful way to support the charity's work and leave a lasting legacy that will help them to help horses and donkeys for generations to come. Whether your gift is large or small, every donation makes a real difference to the future of Redwings' residents.

Trades and professions

The Ripple Pond is the only UK charity to exist solely to support the adult family members of physically or psychologically injured British Armed Forces personnel and veterans.

We are a charity founded on the principles of mutual support and understanding for those caring for loved ones within the Armed Forces community.

Our vision is clear and unwavering: to ensure that everyone in this unique caregiving role "feels seen, heard, and supported." Recognising the immense challenges faced by carers, our mission focuses on reducing isolation, building confidence, fostering resilience, empowering individuals, improving understanding, and enhancing overall well-being.

realised he needed help as he was lying flat and couldn't fly. She rushed him into triage and our duty nurse quickly assessed his condition.

Sadly, Robbie was suffering from temporary ataxia – the loss of coordination and control of movement – and the team suspected he had sustained head trauma. To treat his symptoms, our vet put Robbie on a short course of antibiotics and pain relief. After one week of treatment, Robbie was once again flying around his cage and was ready for release.

We are so happy that we could help this beautiful bird back to the wild and although we never want any wild animal to find itself in trouble, it is nice to think that they know where to come, should they ever need help! Our doors are always open to any wild animal in need, even walk-ins!

To help us care for patients like Robbie, please consider donating. We receive no government or lottery funding, so we need your help – every penny helps us help them!
