

Charities Appeals Supplement

The Charities Appeals Supplement continues to help develop fundraising revenue streams for charities through legacies, corporate support and donation. This section is written by charities detailing their appeals. It is easy to use with a categorised index below and an A–Z index at the end.

If your client is considering leaving a legacy to charity, please encourage them to browse through the appeals when making that important decision. Please mention the Charities Appeals Supplement when contacting a charity.

The team at the Charities Appeals Supplement would like to thank you for your continuing support; especially those who have left legacies to our featured charities over the last year.

INDEPENDENT DIABETES TRUST

Do you have Diabetes?

Do you know someone with Diabetes?

As a small charity with a big mission
WE NEED YOUR HELP...

We offer free support and information to people with diabetes, their families and health care professionals on the issues that are important to them.

Our Helpline offers a friendly, understanding ear when the going gets tough. Your help will enable us to continue to support people with diabetes and provide much needed aid to children in developing countries.

We rely entirely on voluntary donations. So, if you are thinking about making a donation to charity, or updating your Will, please consider a gift to help us continue our work. Please make donations to "Diabetes Trust Research and Care Fund."

u3a learn,
laugh,
live

changing lives for the better

For 40 years, u3a has been providing older people with life-changing experiences.

By providing a gift in your will, you will support fantastic opportunities for future generations of older people for many years to come.

From learning new skills, joining interest groups and forging new friendships, for a very low annual cost the u3a movement ensures there is no need for anyone to be lonely.

Marian from Saxon Shore u3a in Kent explains the impact u3a has had on her life.

"At the age of 60 my husband left me, leaving me devastated. Luckily, I plucked up courage to go along to my local u3a, and I haven't looked back.

I encountered a host of lovely, friendly folk who encouraged me to join in various activities and groups and I have made some fabulous, long-lasting friendships.

Thank goodness for the u3a."

To find out more about leaving a gift in your will to the Third Age Trust which supports u3a across the UK, visit u3a.org.uk/legacy-giving

Image from Barnsley u3a for visual purposes only.

If you knew animals were being abused, could you rest in peace?

Sadly, throughout their lives, the last thing many animals experience is peace. Pepe the spider monkey, for example, was chained by his neck and imprisoned in a circus. They snapped off his canine teeth and kept him in isolation.

He was one of the lucky ones because he was rescued by Animal Defenders International (ADI). He can now live in peace with his own kind. ADI is a major international force in animal protection.

Please help us to help other animals like Pepe to live in peace by making a bequest today to Animal Defenders International.

For a free guide to making a will to help stop animals being abused call us today on 020 7630 3340 or visit www.ad-international.org

Animal Defenders International
Vox Studios North, 1 Durham Street

THE BENEVOLENT FUND FOR NURSES IN SCOTLAND

*THE FUND WHICH
WAS STARTED IN 1925
IS STILL NEEDED TODAY*

The Fund for Nurses was established to give assistance to members of the profession who have trained or worked in professional posts in Scotland.

Financial grants are given to:

- Individuals of any age who are experiencing financial difficulties due to their inability to continue working.
- Retired members of the profession who receive little or no pension.

Sadly more and more nurses are finding it necessary to seek our help and through your generosity, we are able to offer additional support in the form of single grants to those less fortunate members of our profession.

The Fund is administered by a Committee of Trustees, most of whom are members of the nursing profession.

**Donations may be sent to
the Secretary at the Registered Office**

Will you remember
the horses at
Redwings
Horse Sanctuary?

Remember Redwings in your Will and save the lives of hundreds of horses in desperate need for years to come.

Call **01508 481030** or email legacies@redwings.co.uk
to find out how to leave a legacy today.

Thank you

If you
love horses,
remember them!

If you believe in reincarnation there are some animals you wouldn't want to be

Imagine a life of imprisonment in a cramped cage and being the subject of constant experimentation; a lifetime of suffering followed by a painful death. That's the cruel and futile fate suffered by millions of laboratory animals in the name of research.

The National Anti-Vivisection Society (NAVS) is the world's premier and leading group, working for an end to the suffering of animals in laboratories.

Working within the law, we lobby Parliament, produce scientific reports, educational materials and videos; conduct undercover investigations and expose law breaking. We fund non-animal scientific and medical research.

Please help us to help laboratory animals by making a bequest today to the National Anti-Vivisection Society, Vox Studios North, 1 Durham Street, London SE11 5JH

For a free guide to making a will to help laboratory animals call us today on 020 7630 3340 or visit www.navs.org.uk

SUPPORT FOR UNDERREPRESENTED ARTISTS

The Artists' Benevolent Fund (ABF) is an established and respected funder of emerging contemporary individual artists in need. Operating under a Royal Charter since 1827, and founded by a group of philanthropists, the ABF is proud to have served the artists' community for 200 years.

ABF recognises that many talented artists face great difficulties in sustaining their careers. Our grant-making programmes today focus on providing Fellowships for exceptional graduate artists in need - namely, those experiencing economic, societal, physical or mental health issues - so that they are able to further their creative practice.

Please join our community of like-minded individuals who recognise the importance of supporting emerging artists by making a donation to the ABF so that we can continue to help artists in times of need.

Last year we helped over 80,000 wild hedgehogs, birds and animals like Rudolph

Please help me get better

Come and have a look around our Visitor Centre

Opening times can be found on our website www.tiggywinkles.com

is the busiest wildlife hospital in the world

Not only do we treat more hedgehogs than any other wildlife hospital, but our caring team saves lives every single day. Our aim is simple: to treat all injured British wild birds and animals, then return them to the wild. Like Rudolph, who arrived badly injured at just five days old. The road accident that killed his mother left him with three badly broken legs. Our specialist care saved this poor little deer from suffering and he is now facing a brighter future. But it is only with your support that we can help casualties like Rudolph, so please remember Tiggywinkles when making your Will.

Our dear late friend Dame Thora Hird was an ardent supporter of our work. She actively encouraged others to help us secure funding for our lifesaving work to continue. Your legacy will ensure helps is always at hand for all British wildlife; in Dame Thora's own words,

"All the little wild creatures and I thank you so very much".

Help Finance An Evolution

Will you leave a lasting legacy of compassion and help scientific advancement? The Lord Dowding Fund finances scientific and medical research without the use of animals. We believe that cruel animal techniques have no place in 21st century science.

We have supported major advances in many fields including neuroscience, cancer research, and safety testing – we developed a humane British Standard Test for the toxicity of dental fillings. Your legacy could help save the lives of animals and advance scientific research.

Help finance an evolution in medical science and leave a lasting legacy, with a bequest today to the:

Lord Dowding Fund,
Vox Studios North, 1 Durham Street, London SE11 5JH

Animals and birds

Animal Defenders International (ADI) works worldwide to protect animals and the environment. Our investigations of wildlife trafficking, animals in circuses, animal experimentation and more drive awareness, education, legislation, and prosecutions.

ADI offers practical solutions, like advanced techniques to replace animals in research, and support for governments enforcing animal protection laws, such as bans on animal circuses – in Bolivia, Colombia, Peru and Guatemala, ADI tracked down and rescued every circus animal including bears, monkeys, lions, and tigers. Many of these lions and tigers now enjoy natural habitats at the ADI Wildlife Sanctuary, South Africa and we have supported sanctuaries in Latin America, USA and Europe.

Please help with a bequest to Animal Defenders International.

Sadly more and more nurses are finding it necessary to seek our help and through your generosity, we are able to offer additional support in the form of single grants to those less fortunate members of our profession.

Friends of the Animals

17a Riverway

Newport

Isle of Wight

PO30 5UX

T: 01983 522 511

W: www.friendsoftheanimals.co.uk

Registered charity no: 1000249

Animals and birds / Education

Your wish to help animals will be assured by including a gift in your will to "Friends of the Animals". Concentrating on 'preventative' work such as spays, neuters, inoculations and free engraved discs; we never destroy a healthy animal, and keep admin costs to a minimum. Veterinary prices have rocketed and our goal is to employ our own Vet.

We have:-

- ▶ Re-homed 9,760+ animals.
- ▶ Spayed/neutered 44,000+ animals.
- ▶ Built stables for donkeys and ex-pit ponies.
- ▶ Currently funding 450+ rescued farm animals.
- ▶ Distributed over 1,829,000 items of pet food.
- ▶ Supplied almost 20,000 engraved, identity discs FOC.
- ▶ Given numerous educational talks on animal welfare.
- ▶ Wormed and inoculated thousands of animals – many for the first time in their lives!
- ▶ Stepped in to ensure food, safety and new homes for 97 Urban Farm animals, when their owner went out of business.

The majority of animals that come into our care arrive in a poor state. Our reward is seeing those same animals go to their new homes a few weeks later: well fed, groomed, wormed, inoculated and neutered.

VETERINARY TREATMENT is invariably our biggest outgoing.

You have many choices of Charities to support but no one

F: 01604 622838

E: enquiries@iddtinternational.org

W: www.iddtinternational.org

Registered charity no: 1058284

Medical research and welfare

The Trust was set up in 1994 by people with diabetes for people with diabetes. We offer support and understanding to those with diabetes and their families. We provide a free telephone listening service and information leaflets to enable people with diabetes to have an informed choice of treatment and to help with the day to day difficulties of living with diabetes.

Around three quarters of a million people in the UK have insulin requiring diabetes and the incidence of diabetes in children is increasing. It is essential that we support research to help this very vulnerable group faced with a lifetime of diabetes. Your support will enable us to further develop our programme to help children and provide information for teachers about the needs of children with diabetes.

Diabetes can cause blindness, kidney failure, nerve damage and heart attack that severely affect the lives of all those living with diabetes. A cure for diabetes is still illusive so the Trust supports research that will help to improve the daily lives of people living with diabetes now. The studies we support involve people with diabetes under normal treatment conditions to ensure that it reflects 'real life' conditions. We also collate information from the experiences of people with diabetes to help to inform others.

We collect unused, in-date insulin to send to clinics in developing countries where people die for lack of affordable insulin. Please help us to continue our work, making cheques payable to 'Diabetes Trust Research and Care Fund'.

Conservation

London Parks and Gardens [LPG] is the charity dedicated to protecting the capital's green landscape – the 'green lungs' which make London so special.

Our small team, supported by donors, champions much-loved parks, protecting and improving them for everyone to enjoy.

Our dedicated volunteers conduct research to inform our advocacy and campaigning, supporting our unique role in defending

parks (councils are obliged to consult us on proposals which may harm heritage green space).

Since 1999 our London Open Gardens weekend has unlocked usually-closed green spaces, supplementing our income from donors. Last year over a hundred special gardens opened, delighting thousands of visitors.

While much is made of the natural value of London's green spaces, their contributions to society and our physical and mental wellbeing are largely untold.

LPG aims to build awareness of this value and nurture greater public, political and financial investment for a living, greener London for everyone.

Redwings Horse Sanctuary

Hapton

Norwich

NR15 1SP

T: 01508 481030

F: 0870 458 1947

E: legacies@redwings.co.uk

W: www.redwings.org.uk

Registered charity no: 1068911

Animals and birds

Redwings believes that every horse, pony, donkey and mule has the right to a happy and healthy life, free of fear and neglect.

The 100% publicly funded charity rescues neglected and abandoned horses from all over the country, giving them a safe place to live for the rest of their days, and is currently home to over 1,500 – making Redwings the UK's largest horse sanctuary.

As well as providing a place of sanctuary to rescued horses, Redwings has five visitor centres in England and Scotland that enable supporters to see how their kind donations really can make a difference to horses and donkeys in need.

Redwings' Aylsham Visitor Centre in North Norfolk was funded by the gifts people had left in their Wills and has been vital in enabling the charity to continue to provide homes for the increasing number of abandoned horses in desperate need of love and care.

Gifts in Wills make up the largest proportion of Redwings' income and the charity simply wouldn't be able to exist without them. Remembering Redwings Horse Sanctuary in your Will is a wonderful way to support the charity's work and leave a lasting legacy that will help them to help horses and donkeys for generations to come. Whether your gift is large or small, every donation makes a real difference to the future of Redwings' residents.

Shelter

Social services and welfare

Britain is in a housing crisis. Times are tough, rents are rising, and many families are struggling to keep a roof over their heads, let alone get on the property ladder. For others, redundancy or illness can make people fall behind on the rent or mortgage. And every day, millions of people wake up in housing that's run down, overcrowded or dangerous.

At Shelter, we hear from people suffering from health problems and mental health issues, such as depression and

Shelter

stress, and families whose children are missing out on their education or are being bullied – all as a result of bad housing or homelessness.

That's why we provide free, confidential advice and support via our website, helplines, and face to face local services. We help people to find and keep a home in a place where they can thrive, and we tackle the root causes of bad housing by campaigning for new laws, policies and solutions.

Shelter believes everyone should have a home

To continue this work, we rely heavily on the gifts that supporters leave us in their wills. That's why remembering Shelter in your will is one of the most important ways that you can help.

For your guide to including Shelter in your will, please call Katie Small directly on 0344 515 1746 or email legacies@shelter.org.uk.

Visit www.shelter.org.uk/legacy for more information.

Social services and welfare

For 40 years, the u3a movement has been providing older adults with life-changing opportunities and experiences. At a time when social isolation across all generations is a huge problem, u3a offers a low-cost and fun way for those no longer in full-time work, to learn something new, share skills and forge lasting friendships in a relaxed and informal way.

u3a gives a warm welcome in a world which has seen far too many older people cut off from society in recent years. Although we are a comparatively small organisation we make a big difference to people's lives by inspiring confidence in older age. People tell us that u3a has made them feel valued and supported in new communities, has made them feel less lonely, and enabled them to enjoy their life once again.

We do this through our UK-wide network of local u3as, run by members who volunteer their time to offer a wide range of activities from Walking to Talking, Geology to Genealogy, and Climate Change to Crafting to name a few.

The u3a movement is a family, connecting across geographical boundaries through things like our online learning events, our quarterly magazine, our monthly newsletter and even a radio podcast which is produced by members.

Help us keep making a difference by leaving u3a a gift in your will and supporting the many fantastic opportunities for future generations of older adults for many years to come.

Tiggywinkles – the Wildlife Hospital Trust

Aston Road, Haddenham
Aylesbury
Bucks

E: mail@sttiggywinkles.org.uk

W: www.tiggywinkles.com

President: The Countess of Buckinghamshire

Registered charity no: 286447

Animals and birds / Conservation / Education

Here at Tiggywinkles, we are dedicated to rescuing and rehabilitating British wildlife. We are open 24hrs a day, 7 days a week to help

any wild animal in need and our service is free of charge. We rely on donations to provide our life-saving care for patients like Robbie the robin, who arrived in our care under unusual circumstances!

As the World's leading teaching wildlife hospital, we have lots of students on site and one of our Level Two Animal Care students found Robbie on the pathway of our grounds. She immediately realised he needed help as he was lying flat and couldn't fly. She rushed him into triage and our duty nurse quickly assessed his condition.

Sadly, Robbie was suffering from temporary ataxia – the loss of coordination and control of movement – and the team suspected he had sustained head trauma. To treat his symptoms, our vet put Robbie on a short course of antibiotics and pain relief. After one week of treatment, Robbie was once again flying around his cage and was ready for release.

We are so happy that we could help this beautiful bird back to the wild and although we never want any wild animal to find itself in trouble, it is nice to think that they know where to come, should they ever need help! Our doors are always open to any wild animal in need, even walk-ins!

To help us care for patients like Robbie, please consider donating. We receive no government or lottery funding, so we need your help – every penny helps us help them!
