

Charities Appeals Supplement

The Charities Appeals Supplement continues to help develop fundraising revenue streams for charities through legacies, corporate support and donation.

This section is written by charities detailing their appeals. It is easy to use with a categorised index below and an A–Z index at the end.

If your client is considering leaving a legacy to charity, please encourage them to browse through the appeals when making that important decision. Please mention the Charities Appeals Supplement when contacting a charity.

The team at the Charities Appeals Supplement would like to thank you for your continuing support; especially those who have left legacies to our featured charities over the last year.

FRIENDS OF THE ANIMALS

Saving lives since 1990

www.friendsoftheanimals.co.uk

This is what we do:

Veterinary treatment provided for **4,157** animals (last year)

30,000+ animals spayed/neutered

8,000+ animals re-homed

1,538,000 items of pet food distributed

400+ farm animals currently being financed.

Why we need you:

Every neglected and injured animal we save is dependent upon the kindness of a caring person. Will that be you?

PLEASE include
Friends of the Animals
in your will

Help Finance An Evolution

Will you leave a lasting legacy of compassion and help scientific advancement? The Lord Dowding Fund finances scientific and medical research without the use of animals. We believe that cruel animal techniques have no place in 21st century science.

We have supported major advances in many fields including neuroscience, cancer research, and safety testing – we developed a humane British Standard Test for the toxicity of dental fillings. Your legacy could help save the lives of animals and advance scientific research.

Help finance an evolution in medical science and leave a lasting legacy, with a bequest today to the:

**Lord Dowding Fund,
Millbank Tower, Millbank, London SW1P 4QP**

THE BARRISTERS' BENEVOLENT ASSOCIATION

The Barristers' Benevolent Association exists to support, help and comfort those members of the Bar in England and Wales and their families and dependants who are in need, in distress or in difficulties.

During the recent past we have helped barristers and their families in every circuit, often saving not only dignity but careers.

We are not nearly as well-known in the profession as we would like, and there are possibly people who qualify for our help but aren't aware of our existence... we also feel that there are other people who would be willing to contribute to the welfare of their less fortunate colleagues but who are also unaware of us.

Contact Susan Eldridge on **020 7242 4761** for further details or visit our website at **www.the-bba.com**

Registered Charity No.1106768

Missing People founders Mary and Janet have left a legacy which has provided a lifeline to thousands in the UK.

Join them and be a lifeline for a lifetime.

Twenty three years ago, our Founders Mary and Janet saw first-hand the real need for specialist support for families of missing people; and since then we have become experts in the field. Missing People is the only charity of its kind in the UK.

You can help make a real and long-lasting difference to the lives of missing people and those left behind by making a special pledge to Missing People.

For those who go missing, we offer a lifeline by phone, text or email 24/7 to help them find safety. For their families there is a pain that won't end until their loved one is found. We never give up on either of them.

Legacy gifts ensure that we will be able to provide this kind of support for years to come. Gifts both large and small make all the difference to the work of Missing People and will help us continue our Founders' work; and be a lifeline when someone disappears, long into the future.

YOUR LEGACY, OUR LIFELINE.

If you knew animals were being abused, could you rest in peace?

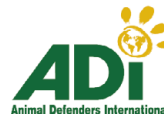

Sadly, throughout their lives, the last thing many animals experience is peace. Pepe the spider monkey, for example, was chained by his neck and imprisoned in a circus. They snapped off his canine teeth and kept him in isolation.

He was one of the lucky ones because he was rescued by Animal Defenders International (ADI). He can now live in peace with his own kind. ADI is a major international force in animal protection.

Please help us to help other animals like Pepe to live in peace by making a bequest today to Animal Defenders International.

For a free guide to making a will to help stop animals being abused call us today on 020 7630 3340 or visit www.ad-international.org

THE BENEVOLENT FUND FOR NURSES IN SCOTLAND

*THE FUND WHICH
WAS STARTED IN 1925
IS STILL NEEDED TODAY*

The Fund for Nurses was established to give assistance to members of the profession who have trained or worked in professional posts in Scotland.

Financial grants are given to:

- Individuals of any age who are experiencing financial difficulties due to their inability to continue working.
- Retired members of the profession who receive little or no pension.

Sadly more and more nurses are finding it necessary to seek our help and through your generosity, we are able to offer additional support in the form of single grants to those less fortunate members of our profession.

The Fund is administered by a Committee of Trustees, most of whom are members of the nursing profession.

Donations may be sent to the Liaison Officer:

Mrs A Davidson, 1 Lufra Bank, Edinburgh, EH5 1BS.

Email admin@bfns.org.uk,

or to the Secretary at the Registered Office

Who'll keep him happy when your client's gone?

We will – as long as your client has a **Canine Care Card**. It's a **FREE** service from Dogs Trust that guarantees a bereaved dog a home for life.

At Dogs Trust, we never put down a healthy dog. We'll care for them at one of our 20 rehoming centres, located around the UK.

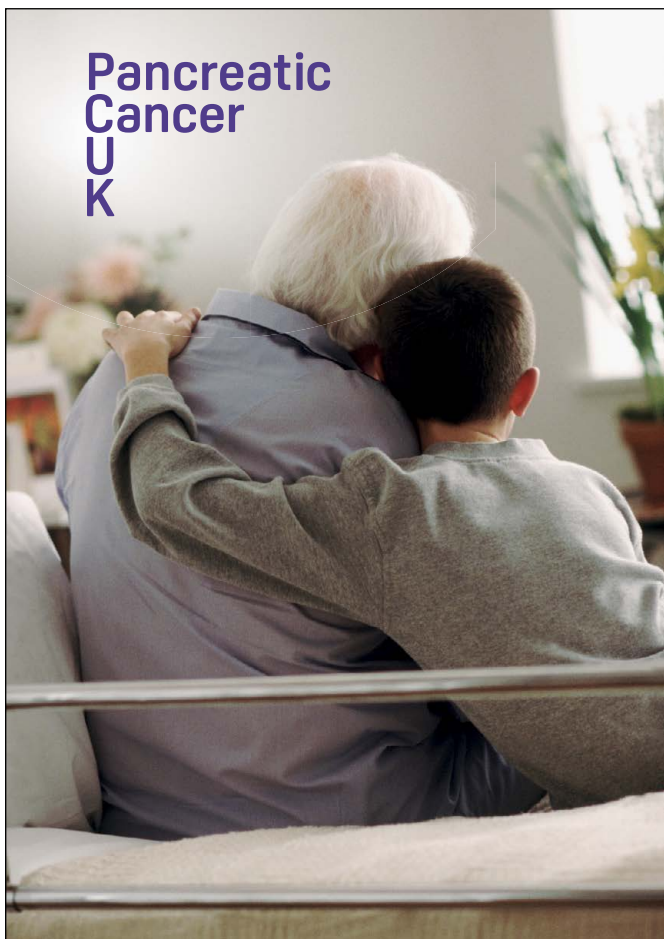

One in every four of your clients has a canine companion. Naturally they'll want to make provision for their faithful friend. And now **you can help them at absolutely no cost.** So contact us today for your **FREE** pack of Canine Care Card leaflets – and make a dog-lover happy.

Call **020 7837 0006** today

Or e-mail **ccc@dogstrust.org.uk**

Or write to: **Dogs Trust, Canine Care Card, Freepost RTJA-SRXG-AZUL, Clarissa Baldwin House, 17 Wakley Street, London, EC1V 7RQ** (no stamp required). Please quote **"113216"**. All information will be treated as strictly confidential. This service is currently only available for residents of the UK, Ireland, Channel Islands & the Isle of Man.

Pancreatic Cancer UK

Pancreatic cancer is tough.

**Tough to research, tough to diagnose,
tough to treat.**

We are fighting to make a difference.

A gift in your Will can help us:

- Provide expert, personalised support and information via our Support Line and through a range of publications.
- Fund innovative research to find the breakthroughs that will change how we research, diagnose and treat pancreatic cancer.
- Campaign for change; for better care, treatment and research, and for pancreatic cancer to have the recognition it deserves.

Don't leave it to chance... leave it to **LAST CHANCE**

As animals can't speak for themselves it falls to me to ask you to consider leaving a legacy to Last Chance Animal Rescue. Any money that we may receive will be spent entirely on the running and improvement at the Centre, which is dedicated to the rescuing, rehabilitation and re-homing of dogs and cats etc.

Many of the number we receive have found their way to our door through circumstances such as their beloved owner passing away, may that door always be open. Many are elderly, in their twilight years, and would just love to find a caring retirement home, something we have great success and pleasure in finding for them, and we continue to care for them, young and old, long after they are settled in their new loving homes, by offering all kinds of support, including financial if needed, for their continued welfare and well being.

As you can imagine, this level of commitment doesn't come cheaply, which is why I am appealing to you to remember Last Chance if possible, when you make your will. They do say... where there's a Will there's a way!

If you believe in reincarnation there are some animals you wouldn't want to be

Imagine a life of imprisonment in a cramped cage and being the subject of constant experimentation; a lifetime of suffering followed by a painful death. That's the cruel and futile fate suffered by millions of laboratory animals in the name of research.

The National Anti-Vivisection Society (NAVS) is the world's premier and leading group, working for an end to the suffering of animals in laboratories.

Working within the law, we lobby Parliament, produce scientific reports, educational materials and videos; conduct undercover investigations and expose law breaking. We fund non-animal scientific and medical research.

Please help us to help laboratory animals by making a bequest today to the National Anti-Vivisection Society, Millbank Tower, Millbank, London SW1P 4QP

For a free guide to making a will to help laboratory animals call us today on 020 7630 3340 or visit www.navs.org.uk

Protecting London's wildlife for the future

Wildlife in the UK is declining at an alarming rate. But leaving a gift to London Wildlife Trust in your Will is a great way to make a lasting contribution to your local wildlife. These gifts, no matter how small, help us protect nature and wildlife across the capital, so that local species can thrive for generations to come.

Anyone can leave a gift to London Wildlife Trust when making a Will. It's one of the easiest and most valuable ways you can support our important work, ensuring that we can:

- Protect the wonderfully rich and diverse nature that is found across London
- Encourage local wildlife to thrive in even the most unlikely places
- Inspire children and adults to experience the joy and wellbeing that comes from connecting with nature – even in the heart of London.

To find out more please email Cathy Gale on cgale@wildlondon.org.uk or call 020 7803 4276

YOU CAN MAKE A REAL DIFFERENCE AND SECURE THE FUTURE FOR OUR RESEARCH.

Over 45,000 men are told that they have prostate cancer every year, and each year over 11,000 men die of the disease, just in the UK. Every year the number of men dying of prostate cancer increases. **We need new and more effective treatment.** The Prostate Cancer Research Centre is developing new treatments to improve survival. By leaving a legacy you can ensure that the research will continue to develop more effective therapy for the next generation of men with prostate cancer.

The Breast Cancer Research Trust

President –

Dame Vera Lynn DBE, LLD, Mmus

The treatment and management of breast cancer has been revolutionised in the last 40 years since I became President of the Breast Cancer Research Trust. The death rate has fallen by 30% in the UK and many patients now experience a personal cure. This in the main has been due to unremitting and time consuming research not only into new drugs and ways of diagnosing, assessing and treating patients but into the basic causes of breast cancer itself.

It gives me great pleasure to state that to date, we have raised over five million pounds, which has enabled us to support forty major research centres throughout the United Kingdom. The Breast Cancer Research Trust is a charity dedicated to funding clinically based laboratory project research, undertaken in recognised cancer centres or research institutions in the UK, directly aimed at improving the prevention, early diagnosis and treatment of breast cancer. 100% of all donations go towards this vital research as the Trust is run on a purely voluntary basis.

By helping us, you are giving aid and hope to all women who develop this particular cancer.

You can make a lasting difference for millions of animals

Caring beyond the farm gate

Around the world, millions of animals are killed for human consumption every day. However well cared for on the farm, animals are extremely vulnerable once they leave – during transport, at markets and up to the point of slaughter in abattoirs. The potential for suffering is immense.

The HSA is unique – the only UK charity totally dedicated to the humane treatment of all food animals in markets, during transport, at slaughter. You can help us make a difference for millions of animals with your support.

For more information about the HSA's work and achievements contact:

to find out how to leave a legacy today.

Thank you!

Last year we helped over 80,000 wild birds and animals like Rudolph

Please help me get better

Specialising in hedgehogs, our caring teams save lives every single day of the year. Our aim is simple. To treat all injured British birds and animals, then return them to the wild. Like Rudolph, who was orphaned at Christmas time, just five days old. The road accident which killed his mother left him with three badly broken legs. Our specialist care saved this poor little deer from suffering and he is now facing a brighter future. But it is only with your support we can help casualties like Rudolph, so please remember Tiggywinkles in your Will.

Our late friend **Dame Thora Hird** was an ardent supporter of our work. She actively encouraged others to help us secure funding for our lifesaving work to continue. Your legacy will ensure help is always at hand for all British wildlife; in Dame Thora's own words, "All the little wild creatures and I thank you so very much".

Animals and birds

Animal Defenders International is a major international force in animal protection, working on such issues as the use of animals in entertainment, the worldwide traffic in endangered species and alternatives to the use of animals in research. Recent campaign successes include the introduction of a ban on the use of all animals in circuses in Bolivia and of wild animals in Peru and Colombia.

Animal Defenders International also rescue animals in distress and, following the ban in Peru, worked with the authorities to seize and relocate over 100 animals in the biggest operation of its kind.

Help safeguard animals from cruelty by making a bequest to Animal Defenders International. Thank you.

Financial grants are given to:

- ▶ Individuals of any age, who are experiencing financial difficulties due to their inability to continue working.
- ▶ Retired members of the profession who receive little or no pension.

Sadly more and more nurses are finding it necessary to seek our help and through your generosity, we are able to offer additional support in the form of single grants to those less fortunate members of our profession.

Trades and professions

The Barristers' Benevolent Association exists to support, help and comfort those members of the Bar in England and Wales and their families and dependants who are in need, in distress or in difficulties.

During the recent past we have helped barristers and their families in every circuit, often saving not only dignity but careers.

We are not nearly as well-known in the profession as we would like, and there are possibly people who qualify for our help but aren't aware of our existence... we also feel that there are other people who would be willing to contribute to the welfare of their less fortunate colleagues but who are also unaware of us.

Contact Susan Eldridge on 020 7242 4761 for further details or visit our website at www.the-bba.com

W: www.blind.org.uk

Registered Charity No: 1078287 (Registered as a limited company in England. Company No: 3870182)

Blind / Old people's welfare / People with disabilities

Many elderly people with sight loss live alone, often on a very limited income – leaving them feeling isolated.

British Wireless for the Blind Fund aims to ease this feeling by providing specially adapted radios to blind and partially sighted people.

We have been providing these lifelines to people with sight loss since 1928.

Radios offer a constant and vital link to the outside world and allow blind and partially sighted people to keep in touch with what's going on.

We rely on the generosity of our supporters, who help us to keep providing this vital service to those who need us.

A big part of our funding is through legacies – which allow us to ensure we can continue to help those who need us most.

We would be so grateful if you would consider leaving us a gift in your will.

For more information, please contact us using the details above.

Animals and birds

As the UK's largest dog welfare charity, Dogs Trust cares for nearly 17,000 stray and abandoned dogs a year through its network of 20 rehoming centres. We believe that every dog deserves a loving home and work to match the right dog with the right owner. We never put down a healthy dog and are working towards a day when all dogs can enjoy a happy life, free from the threat of unnecessary destruction.

Dogs Trust relies on donations and legacies in order to continue its vital work. Every gift is gratefully received and helps care for so many dogs in need.

A Charity Registered with the Charity Commission for England and Wales No 264818

Animals and birds / International aid

ABOUT OUR WORK:

Leaving a legacy or bequest to The Donkey Sanctuary can help thousands of working donkeys all around the world. The charity relies entirely on donations to support major programmes in Egypt, Ethiopia, India, Kenya and Mexico, and many other countries through its small grants programme.

It works to improve donkey welfare through veterinary assistance and extends education and advice to donkey-owning communities. Through sustainable partnerships The Donkey Sanctuary's experts promote training in donkey first aid, harness making and general care and welfare.

If you remember The Donkey Sanctuary in your will The Donkey Sanctuary will remember you by inscribing your name on a permanent memorial board in the Sanctuary's grounds.

If you would like a copy of the charity's Will Guide, please contact the Legacy Department on 01395 578222.

A Charity Registered with the Charity Commission for England and Wales No 264818

Animals and birds

ABOUT OUR WORK:

The Donkey Sanctuary is a registered charity and the largest of its kind in the world. We provide specialist care and refuge to donkeys in the UK, Ireland and Europe. We also work all across the world in Egypt, Ethiopia, India, Kenya and Mexico to improve donkey welfare through community education and veterinary work.

We aim to protect donkeys and mules and promote their welfare worldwide through the provision of expert advice, training and education. Welfare officers in the UK and Ireland provide advice and practical support to donkey owners and follow up reports of neglect or maltreatment. The sanctuary's veterinary team shares their knowledge with practitioners around the world.

Remember the donkeys in your Will and we'll remember you by inscribing your name on one of our permanent bequest boards in The Donkey Sanctuary's grounds. To find out about our memorial schemes and how your bequest would help donkeys around the world, please contact the Legacy Department.

Thank you.

Friends of the Animals

17a Riverway, Newport
Isle of Wight PO30 5UX
T: 01983 522 511

Registered charity no: 1000249

Animals and birds / Education

Your wish to help animals will be assured by including a gift in your will to "Friends of the Animals". The primary objective of the Charity is to help animals NOW, we do not 'sit on funds'. Concentrating on 'preventative' work such as spays, neuters, inoculations, boosters and free engraved discs; we never destroy a healthy animal and keep admin costs to a minimum. We have:-

- ▶ Opened four branches.
- ▶ Re-homed more than 8,000 animals.
- ▶ Built stables for donkeys and ex-pit ponies.
- ▶ Distributed over one and a half million items of pet food.
- ▶ Supplied 18,000 engraved, identity discs FOC.
- ▶ Given numerous educational talks on animal welfare.
- ▶ Wormed and inoculated thousands of animals – many for the first time in their lives!
- ▶ Stepped in to ensure food, safety and new homes for 97 Urban Farm animals, when their owner went out of business.
- ▶ Spayed/neutered 30,000+ animals – which has prevented thousands of unwanted animals from being born into a largely uncaring world.

Currently funding 400+ rescued farm animals.

The majority of animals that come into our care arrive in a poor state. Our reward is seeing those same animals go to their new home a few weeks later: well fed, groomed, wormed, inoculated and neutered.

VETERINARY TREATMENT is – and always has been – BY FAR OUR BIGGEST OUTGOING. You have many choices of Charities to support but no one appreciates it more – or tries harder than we do – to get the very best possible from every penny donated. Your help today will ensure a happier tomorrow for countless animals. I send my grateful thanks.

Helen Sinclair MBE (Founder)

can make a lasting and practical difference to the welfare of millions of animals.

Independent Diabetes Trust

PO Box 294

Northampton
NN1 4XS

T: 01604 622837

F: 01604 622838

E: enquiries@iddtinternational.org

W: www.iddtinternational.org

Registered charity no: 1058284

Medical research and welfare

The Trust was set up in 1994 by people with diabetes for people with diabetes. We offer support and understanding to those with diabetes and their families. We provide a free telephone listening service and information leaflets to enable people with diabetes to have an informed choice of treatment and to help with the day to day difficulties of living with diabetes.

Around three quarters of a million people in the UK have insulin requiring diabetes and the incidence of diabetes in children is increasing. It is essential that we support research to help this very vulnerable group faced with a lifetime of diabetes. Your support will enable us to further develop our programme to help children and provide information for teachers about the needs of children with diabetes.

Diabetes can cause blindness, kidney failure, nerve damage and heart attack that severely affect the lives of all those living with diabetes. A cure for diabetes is still illusive so the Trust supports research that will help to improve the daily lives of people living with diabetes now. The studies we support involve people with diabetes under normal treatment conditions to ensure that it reflects 'real life' conditions. We also collate information from the experiences of people with diabetes to help to inform others.

We collect unused, in-date insulin to send to clinics in developing countries where people die for lack of affordable insulin.

Please help us to continue our work, making cheques payable to 'Diabetes Trust Research and Care Fund'.

Animals and birds / Education

The HSA is the only charity working exclusively to improve the welfare of animals raised for food when they are at their most vulnerable – in markets, during transport and at the slaughterhouse.

For 100 years the HSA has helped to prevent the suffering of animals at these times, working to ensure that high welfare standards are developed and used beyond the farm gate.

Practical and lasting improvements are achieved through education, training, technical and best practice developments – working with road hauliers, market workers, slaughterhouse staff, retailers, and agricultural and veterinary students. Additionally, award schemes are run each year and grants are made in support of projects that lead to worthwhile improvements in welfare.

As an independent registered charity, the HSA relies on donations and legacies to continue this vital work. By supporting the HSA you

Animals and birds

Don't leave it to chance... leave it to LAST CHANCE

As animals can't speak for themselves it falls to me to ask you to consider leaving a **legacy to Last Chance Animal Rescue**.

Any money that we may receive will be spent entirely on the running and improvement of the Centre which is dedicated to the rescuing, rehabilitating and rehoming of dogs and cats etc.

Many of the number we receive have found their way to our door through circumstances such as their beloved owner passing away. May that door always be open.

Many are elderly, in their twilight years, and would just love to find a caring retirement home: something we have great success and pleasure in finding for them, and we continue to care for them, young and old, long after they are settled in their new loving homes by offering all kinds of support, including financial if needed, for their continued welfare and well being. As you can imagine this level of commitment doesn't come cheaply, which is why I am appealing to you to remember Last Chance if possible, when you make your Will.

If you would like us to take care of your pets in your absence please remember to include instructions to this effect and if possible inform us of your wishes.

I hope you will consider us a worthy charity. It would be wonderful to think that with your help, Last Chance could always be there to pick up the pieces in times of need.

They do say where there's a Will there's a way!

London Wildlife Trust

Registered charity no: 283895

Animals and birds

Wildlife in the UK is declining at an alarming rate. But leaving a gift to London Wildlife Trust in your Will is a great way to make a lasting contribution to your local wildlife. These gifts, no matter how small, help us protect nature and wildlife across the capital, so that local species can thrive for generations to come.

Anyone can leave a gift to London Wildlife Trust when making a Will. It's one of the easiest and most valuable ways you can support our important work, ensuring that we can:

- ▶ Protect the wonderfully rich and diverse nature that is found across London
- ▶ Encourage local wildlife to thrive in even the most unlikely places
- ▶ Inspire children and adults to experience the joy and wellbeing that comes from connecting with nature – even in the heart of London

To find out more please email Cathy Gale on cgale@wildlondon.org.uk or call 020 7803 4276

F: 020 7828 2179

E: info@ldf.org.uk

W: www.ldf.org.uk

Animals and birds / Medical research and welfare

The Lord Dowding Fund supports better methods of scientific and medical research which replace the use of animals.

Since being founded in 1973, the Lord Dowding Fund has awarded grants to researchers working in a wide range of fields including breast and lung cancer, microsurgery, Parkinson's disease, cataracts, toxicity testing of dental fillings, cot deaths, product safety testing, kidney research, schizophrenia, biotechnology, hepatitis B, pain, infertility, tissue engineering and vascular disease.

It is a myth that animals are indispensable to research. We can have solid, scientific medical research without making animals suffer for progress. The Lord Dowding Fund can save animals and help people, but only with your generous support.

Thank you.

Missing People Ltd is incorporated in England and Wales. Registered Charity No 1020419

Social services and welfare

Twenty three years ago, our Founders Mary and Janet saw first-hand the real need for specialist support for families of missing people; and since then we have become experts in the field. Missing People is the only charity of its kind in the UK. Every year, 250,000 people go missing in the UK. Of these, more than 130,000 are children and young people. You can help make a real and long-lasting difference to the lives of missing people and those left behind by making a special pledge to Missing People. For those who go missing, we offer a lifeline by phone, text or email 24/7 to help them find safety. For their families there is a pain that won't end until their loved one is found. We never give up on either of them. Legacy gifts ensure that we will be able to provide this kind of support for years to come. For a free copy of the charity's Will Booklet, please contact the Legacy team on 020 8392 4590 or

W: www.nawt.org.uk
Registered charity no: 1090499

Animals and birds

The National Animal Welfare Trust (NAWT) is a rescue and rehoming charity operating across the south of England. We are home to a surprisingly wide variety of animals across our five centres, primarily cats and dogs, but also farm animals and small domestic pets too. We provide food, warmth and veterinary treatment to those animals in need of care, prior to finding them their forever home - however long it takes. Every animal remains in our hearts long after a new home is found and we continue to provide advice and guidance to support pet and owner in their new lives together.

A Pet Care Card is also a free service that the charity offers, guaranteeing peace of mind, knowing that the pet's future will be a safe and happy one after the owner has gone. If it is the wish that the pet be looked after by NAWT then suggested wording can be provided for use in any Will.

NAWT never stops caring and is totally reliant on the generosity of the public for donations and legacy gifts to support its valuable work. Thank you.

National Anti-Vivisection Society

Millbank Tower
Millbank
London
SW1P 4QP
T: 020 7630 3340
F: 020 7828 2179
E: info@navs.org.uk
W: www.navs.org.uk

Animals and birds / Medical research and welfare

The National Anti-Vivisection Society (NAVS) is the world's longest established group working to end the suffering of animals in laboratories. Every year millions of animals suffer and die in cruel and futile experiments and the NAVS actively campaigns for animal experiments to be replaced with sophisticated, non-animal methods.

Working within the law, we lobby government, produce scientific reports, educational materials and videos for parliament and the public; we conduct undercover investigations and expose lawbreaking; we fund nonanimal scientific and medical research. The NAVS advocates the total prohibition of all animal experiments and, pending the achievement of this aim, we would support measures which provide steps towards the abolition of vivisection.

We can do more but as a non-profit organisation we can only do so with your help. Please consider remembering the NAVS in your Will. Thank you.

Pancreatic Cancer UK

6th Floor
Westminster Tower
3 Albert Embankment
London
SE1 7SP
T: 020 3535 7090
E: legacies@pancreaticcancer.org.uk
W: www.pancreaticcancer.org.uk
Registered charity no: 1112708

Medical research and welfare

For anyone a diagnosis of cancer is a devastating, life changing moment. For people diagnosed with pancreatic cancer that diagnosis is especially difficult as pancreatic cancer has the highest mortality rate of the 21 most common cancers.

Of the 8,800 people diagnosed in the UK this year, 95% of them will be dead in five years' time. Survival rates have remained virtually unchanged in 40 years.

Pancreatic cancer is tough.

- ▶ Tough to diagnose
- ▶ Tough to treat
- ▶ Tough to survive
- ▶ And it will be tough to change that. But we're ready.

We're taking on pancreatic cancer together. For too long this disease has been side-lined. We want to make sure this changes.

By supporting Pancreatic Cancer UK you are helping us to:

- ▶ run the UK's only pancreatic cancer-dedicated Support Line giving thousands of patients and their families direct access to expert nurses;
- ▶ campaign to increase awareness of the disease
- ▶ commission innovative and vital research to find better, more effective treatments

Leaving Pancreatic Cancer UK a legacy gift is an easy way to donate to the charity to leave a legacy of hope for those with pancreatic cancer.

Prostate Cancer Research Centre

Britannia House
7 Trinity Street
London
SE11DB
T: 020 7848 7546
E: info@prostate-cancer-research.org.uk
W: www.prostate-cancer-research.org.uk
Registered charity no: 1156027
(England & Wales)

Medical research and welfare

Prostate cancer is the most frequently diagnosed cancer in men. In the UK, over 40,000 new cases are diagnosed every year and over 10,000 men die of the disease.

The treatment for life-threatening advanced prostate cancer, hormone therapy, was developed in the 1940s. Because hormone therapy is still the most effective treatment for these men, survival has not improved significantly for over 70 years. That is why the Prostate Cancer Research Centre is dedicated to developing more effective therapy in order to improve survival of advanced prostate cancer.

We fund world class ground breaking research aiming to discover new and more effective treatment for advanced prostate cancer.

Please consider making a bequest to the Prostate Cancer Research Centre. Your legacy will help the next generation of men suffering with prostate cancer.

Redwings Horse Sanctuary

Hapton
Norwich
Norfolk NR15 1SP
T: 01508 481000
F: 0870 4581947
E: legacies@redwings.co.uk
Website: www.redwings.org.uk
Registered charity no: 1068911

Animals and birds

Redwings believes that every horse, pony, donkey and mule has the right to a happy and healthy life, free of fear and neglect.

The 100% publicly funded charity rescues neglected and abandoned horses from all over the country, giving them a safe place to live for the rest of their days, and is currently home to over 1,500 – making Redwings the UK's largest horse sanctuary.

As well as providing a place of sanctuary to rescued horses, Redwings has five visitor centres in England and Scotland that enable supporters to see how their kind donations really can make a difference to horses and donkeys in need.

Redwings' Aylsham Visitor Centre in North Norfolk was funded by the gifts people had left in their Wills and has been vital in enabling the charity to continue to provide homes for the increasing number of abandoned horses in desperate need of love and care.

Gifts in Wills make up the largest proportion of Redwings' income and the charity simply wouldn't be able to exist without them.

Remembering Redwings Horse Sanctuary in your Will is a wonderful way to support the charity's work and leave a lasting legacy that will help them to help horses and donkeys for generations to come. Whether your gift is large or small, every donation makes a real difference to the future of Redwings' residents.

'You can help our operation be a success'

With 4.2 million surgical operations carried out every year in England alone our aim to maintain and advance surgical standards in patient care has never been so important. Some operations are minor, while others are life-saving or will dramatically enhance the quality of life. In every case, the patient places their trust in the hands of the surgeon. A registered charity, The Royal College of Surgeons of England exists to drive forward standards in patient care.

Saving lives, the relief of pain and improved quality of life through surgery is the result of research, education and training into new techniques, technology and the understanding of disease. To fund these vitally important programmes the College relies heavily on legacies and personal gifts from friends and supporters who share our aims.

Please support The Royal College of Surgeons of England with a legacy gift in your Will and help us train and equip the surgeons of the future.

The College is delighted to provide speakers at local and national events to talk about present advances in surgery, the history of surgery or topics of particular interest or concern.

For further information on presentations or making a legacy gift, please contact Nicola Extance-Vaughan at the above address.

Shelter

88 Old Street
London EC1V 9HU

Registered Charity in England and Wales (263710)
and in Scotland (SC002327)

Social services and welfare

Britain is in a housing crisis. Times are tough, rents are rising, and many families are struggling to keep a roof over their heads, let alone get on the property ladder. For others, redundancy or illness can make people fall behind on the rent or mortgage. And every day, millions of people wake up in housing that's run down, overcrowded or dangerous.

At Shelter, we hear from people suffering from health problems and mental health issues, such as depression and stress, and families whose children are missing out on their education or are being bullied – all as a result of bad housing or homelessness.

That's why we provide free, confidential advice and support via our website, helplines, and face to face local services. We help people to find and keep a home in a place where they can thrive, and we tackle the root causes of bad housing by campaigning for new laws, policies and solutions.

Shelter believes everyone should have a home

To continue this work, we rely heavily on the gifts that supporters leave us in their wills. That's why remembering Shelter in your will is one of the most important ways that you can help.

For your free will guide please call Joel Dunster on 0344 515 2062. Alternatively, email joel_dunster@shelter.org.uk or write to the above address.

Until there's a home for everyone

Please remember Shelter in your will

Shelter helps millions of people every year struggling with bad housing or homelessness. For many, this means the difference between being forced to live in squalor and living in a safe, secure home.

Remembering Shelter in your will is one of the most important and lasting ways that you can help people to keep a roof over their heads.

For your guide to including Shelter in your will, please call Joel Dunster directly on 0344 515 2062 or email joel_dunster@shelter.org.uk.

Visit www.shelter.org.uk/legacy for more information.

Society for the Assistance of Ladies in Reduced Circumstances

Lancaster House
25 Hornyard Road
Malvern
Worcestershire WR14 1QQ

Registered as a Charity in England & Wales No: 205798

Relief of poverty

Part of the 'Remember a Charity' Campaign

Did you know that the law says a woman under state pension age living alone is expected to live on only £73.10 per week, out of which she may have to pay some rent and council tax?

The Society was founded by Miss Edith Smallwood in 1886. Our Patron is HM The Queen. We support women domiciled and habitually resident in the United Kingdom, who are living alone in their own home (either owned or rented) and in genuine need, irrespective of age or social status. We do so mainly by regular monthly grants towards their day-to-day living expenses.

During 2015 we made grants totalling almost £649,000 to 471 women. In these very difficult times when the poorest members of society are bearing the brunt of the cuts in welfare payments we would like to help even more, but to enable us to do so we need to increase our income. Think of the difference that you could make by sending a donation now, or by including us in your will!

To find out more about our work, and how you can help us, please visit our web site www.salrc.org.uk or call us on 0300 365 1886.

SongBird Survival

W: www.songbird-survival.org.uk

Animals and birds

Help Us Save the Dawn Chorus for Tomorrow

Songbird numbers have crashed in only one generation. Farmland birds have halved, some others have fared worse. But is this all down to farming techniques and loss of habitat? Much has been done already such as restoring hedgerows and farm environment schemes but numbers of these beautiful birds don't seem to be getting any better.

SongBird Survival is funding new research to find out more about the problems our songbirds face and hope to find ways to reverse the worrying decline in their numbers. Our research has highlighted that it is not simply habitat management but also predation management which is of vital importance. But this is only the tip of the iceberg; there is so much more we need to learn.

If you would like more information on how you can help us please visit www.songbird-survival.org.uk

Stroke Association

Stroke Association House
240 City Road, London EC1V 2PR
T: 020 7566 1505
F: 020 7490 2686

E: legacy@stroke.org.uk

W: www.stroke.org.uk

Registered Charity No: 211015, SC037789

Medical research and welfare

Stroke affects every one of us. It kills twice as many women as breast cancer and more men than prostate cancer. Stroke is now the second biggest killer in the world and the leading cause of complex adult disability in the UK. That's why we support stroke survivors to make the best recovery they can. It's why we campaign for better stroke care, and why we fund research into new treatments and ways to prevent stroke. The Stroke Association is a charity. We rely on your legacy gifts to transform how we prevent and treat stroke and to save more lives. Together we can conquer stroke.

Swan Lifeline

Cuckoo Weir Island, South Meadow Lane
Eton

Berkshire SL4 6SS

T: 01753 859397

E: kaywebbsll@btinternet.com

W: www.swanlifeline.org.uk

Charitable Incorporated Organisation 1156995

Animals and birds

Entirely funded by donations Swan Lifeline rescues and treats sick and injured swans. After rescue swans are admitted for care

if necessary to the purpose built Headquarters in Eton, Berkshire. Specialist veterinary treatment is given as required with follow up care carried out by trained people. Swans are released back to the wild after treatment with permanently disabled swans being found sheltered homes on private lakes. The majority of work is carried out by volunteers under the supervision of a resident manager. In the 30 years since the Charity was formed thousands of swans have been rescued and treated.

Animals and birds / Conservation / Education

Specialising in hedgehogs, Tiggywinkles, The Wildlife Hospital Trust, has been working for over 30 years rescuing, treating and rehabilitating sick, injured and orphaned British wildlife. We have proved beyond doubt that most wild animal and bird casualties can be saved and released back to the wild.

The wealth of expertise and knowledge in the care of a wide range of species, much of it previously unrecorded, can now be passed on to others. Our commitment to practical education plays a vital part in the future conservation of wildlife and as an accredited centre opportunities are now available for 16+ years' to gain a City and Guilds qualification in animal care.

Les Stocker, Founder of Tiggywinkles, was awarded the title of 'Laureate' in the International 1990 Rolex Awards for Enterprise for his work in wildlife conservation and establishing Europe's first Wildlife Teaching Hospital. This was the first environmental Laureate to be awarded to a project based in Britain. He has also been awarded an MBE by her Majesty The Queen and, more recently, the prestigious Honorary Associateship of the Royal College of Veterinary Surgeons.

Dependency on public compassion underpins the work of a committed team of veterinary staff and volunteers dedicated to providing the best care and medical expertise for their patients. We need your help to expand our work enabling us to save more of Britain's deer, badgers, hedgehogs, owls; in fact all British wild creatures. For this work to grow and thrive it is your legacy that will help forge a secure path for wild animals and birds for many years to come. Please think about ensuring their security.

We are happy to commemorate all who generously remember the Wildlife Hospital Trust in their wills by inscribing their name on a plaque in our Remembrance Garden. Your gifts are also welcome in the form of a donation or by becoming a friend of Tiggywinkles. PLEASE, HELP US HELP THEM.

Animals and birds / Education

UFAW is an internationally-recognized, independent, scientific and educational animal welfare charity concerned with promoting high standards of animal welfare. It works to improve animal lives by:

- ▶ promoting and supporting developments in the science and technology that underpin advances in animal welfare
- ▶ promoting education in animal care and welfare
- ▶ providing information, organizing meetings, and publishing books, videos, articles, technical reports and the leading scientific journal *Animal Welfare*
- ▶ providing expert advice to government departments and other bodies and by helping to draft and amend laws and guidelines.

UFAW believes that by making rational judgements based upon scientific study, lasting advances can be made in the way we look after animals.

For UFAW to continue improving the way animals are treated and cared for around the world, your support is essential. Please help us to continue this important work through a donation or legacy. Thank you.

and habitats worldwide, which are endangered due to climate change, habitat destruction, and the bush-meat and pet trades. For some species, it is too late. Your legacy to Wild Futures is the gift of life, a future for primates and our wonderful planet.

We receive no government funding, so the generosity of those that remember Wild Futures is essential for us to continue our work. Your legacy can create a wild and safe future for all.

Conservation / Cultural and environmental

Since 1972, the Woodland Trust has been saving threatened ancient woods and creating new areas of native woodland throughout the UK. We care for over 1,000 woods and have planted millions of native trees – more than any other UK conservation organisation.

With tree disease, climate change and development threats, protecting the future of our precious woodland is more urgent than ever.

Gifts kindly left in wills provide more than a quarter of our total funding and have enabled us to:

- ▶ plant hundreds of thousands of trees for the future
- ▶ protect hundreds of acres of precious ancient woodland
- ▶ inspire new generations to enjoy and nurture woods and wildlife

Choosing to remember the Woodland Trust in this special way will leave a lasting living legacy. Your gift could help save our richest habitat, supporting vulnerable wildlife and fighting global climate change. It could enable future generations to create their own magical childhood memories, to relax and connect with nature.

After you have taken care of family and friends, please consider remembering the Woodland Trust in your will – and help ensure that the woods and trees you care about.

Find out more at legacies.org.uk or call 0330 333 5302.
