We are fully conversant with civil and criminal work. We are licensed users of Edcrash, AI Damage, Assessor 2000 and Crash 2000, Glassmatix and Evaluator. All of our test equipment is annually calibrated to BSI and applicable standards.

Phone us today or contact us by e-mail or website to obtain a copy of our brochure and to discuss the services we offer which can be tailored to your requirements. E J Allen & Associates has been established since 1989 and our consultants have over 75 years combined experience.

FORMEDECON

**Unit 41, Enterprise City
Spennymoor DL16 6JF**

T: 01388 811003

F: 01388 811918

E: Formedecon@aol.com

W: www.formedecon.com

Formedecon Ltd has a team of experts including ex-Home Office scientists, former senior police officers and internationally recognized academics who undertake both prosecution and defence cases

worldwide providing the best information in an impartial manner.

Formedecon's experts also lecture on university based postgraduate courses in forensic science, are involved in ongoing research projects and appear in the media as experts or technical advisers.

Formedecon produces in-depth reports which regularly prove invaluable, findings are usually agreed by prosecution experts. The company welcomes both Legally Aided cases and those which are privately funded.

Formedecon provide free estimates. We endeavour not to exceed these estimates providing no new form of evidence or information be supplied.

HAWKINS

**25 Cambridge Science Park
Milton Road**

Cambridge CB4 0FW

T: 01223 420400

F: 01223 420181

W: www.hawkins.biz

Hawkins is a well-established and respected firm of forensic scientists that investigates a wide range of losses including:

- personal injury
- road traffic accidents
- engineering problems
- fires
- explosions

All our investigations are conducted with potential litigation in mind and we are very experienced in the preparation of reports, liaison with solicitors and barristers and presenting at Court.

Hawkins was established in 1980, with our head office being based in Cambridge. We currently have seven regional offices, located in Manchester, Bristol, London, Reigate, Leeds, Birmingham and Glasgow.

DR J H BURGOYNE & PARTNERS LLP

**11-12 Half Moon Court
Bartholomew Close
London EC1A 7HF**

T: 020 7726 4951

F: 020 7726 8980

E: postmaster@burgoyne.com

W: www.burgoyne.com

Burgoyne have an enviable reputation as forensic scientists and engineers. They are the largest organisation of their type in the UK. Besides the head office in London, they have seven regional offices covering England, Scotland and Wales. They also have offices in Singapore, Hong Kong and the USA.

Their team of over 60 scientists and engineers is drawn from a wide range of disciplines. Their expertise includes: Fire & Explosion Investigation, Electrical Engineering, Mechanical Engineering, Metallurgy and Materials Failures, Road Traffic Collision Investigation, Marine Cargo Investigation, Chemical Engineering and Contamination Assessment.

Burgoyne provide a comprehensive service. They frequently attend scenes on the day of instruction and follow an investigation to the point of preparing formal reports for clients and courts, and presenting oral evidence. They are proud of their range of expertise, the rigour of their investigations and the efficient way they provide regular, pertinent communication to their clients.

Covering all aspects of the investigation and reconstruction of Road Traffic Accidents

Providing a professional service to the legal and insurance industries based on a wealth of experience and qualifications

- **Free initial advice given in all cases**

Burgoyne have an enviable reputation as Forensic Scientists and Consulting Engineers. The Traffic Division has wide experience in the reconstruction of collisions, and offers a range of independent specialised technical advice and consultancy. Our clients include major Insurers, Solicitors, and Police Forces.

Expertise:

- All aspects of collision investigation
- Speeds of vehicles from physical evidence and crushing damage
- Vehicle-pedestrian collisions
- Time and distance studies
- Vehicle dynamics/stability
- Safety of loads on vehicles
- Tachograph chart analysis – collisions and route tracing
- 'Black box' recorder analysis
- Tyre and light bulb examination
- Component failure investigation
- Seat belt investigation
- Investigation of vehicle fires

Services:

- Immediate preliminary assistance and advice
- Scene and vehicle investigation
- Collision reconstruction
- Interpretation and appraisal of findings
- Statement taking and plan preparation
- Report, advice and expert witness service

This service is closely linked with our Materials Failure Investigation Service. Our team of forensic scientists and engineers also investigates incidents including fires, explosions, engineering failures, marine cargo, contamination assessment and other incidents. We service the entire UK, and undertake international work.

Our experts will be happy to assist and discuss any queries with you.

KEN DIBBLE ACOUSTICS

**18 Park Road
Rugby CV21 2QH
T: 01788 541133
E: ken@kdacoustics.co.uk
W: www.kdacoustics.co.uk**

Established in 1977, Ken Dibble Acoustics is an independent consultancy in acoustics, noise control and audio engineering – including our own, in-house instrumentation resources. The practice principal is a Chartered Engineer, Fellow of the Institute of Acoustics and a Practising Member of the Academy of Experts with 30 years experience. He has handled over 120 cases to date and testified at approximately 50. He is a UK Register and Sweet & Maxwell “Checked Expert”, has undergone training under CPR Part 35 and has SJE experience. Client base encompasses legal practices, architects, insurance loss adjusters, public utilities and local authorities, along with many leading leisure, industrial and commercial enterprises. A practice information wallet is available on request or visit our website at www.kdacoustics.co.uk – which includes an interactive enquiry page.

LAIRD ASSESSORS LTD

**Whitfield Buildings
188-200 Pensby Road
Heswall
Wirral CH60 7RJ
T: 0151 342 9961
F: 0151 3427844
DX: 744160 Heswall
W: www.Laird-Assessors.com**

Laird Assessors specialize in accident investigation services, providing high quality independent, comprehensive reports to the insurance and legal industries, examining vehicles and accident sites throughout the UK.

- Accident Damage
- Pre-Purchase
- Diminution in Value
- Low Velocity Impacts
- Locus Reports
- Injury Photography
- Fraud Investigation
- Accident Reconstruction

Our engineers are highly qualified and experienced in the accident repair and insurance industry and are practiced expert witnesses, supporting the contents of their report in court whenever required. Specialized administration teams provide superb backup and assistance to clients, backed by a comprehensive IT infrastructure utilizing industry standard software from Glass's, Audatex and Thatcham and linked to databases such as the DVLA and HPI. Our system can also be linked to most of the popular claim management systems to ensure accurate and fast data transfer.

SHAUN MURKETT ACOUSTIC CONSULTANTS LTD

**Clissold Road
Stoke Newington
London N16 9EX
T: 020 7923 7275
E: murkett@aol.com
W: www.shawnmurdett-acoustics.co.uk**

Shaun Murkett Acoustic Consultants is a London-based company that gives professional technical advice on acoustics that resolves noise issues. Services range from general noise surveys, solving noise

problems and acoustic design to representing high profile clients as their expert witness at court. We work on projects ranging from large architectural projects, to festivals and corporate events, to local pubs and clubs. Clients include Marks and Spencer, Edward Cullinan Architects, several London boroughs and many London bars and clubs. Contact us for a friendly, professional discussion about your noise issue and find out how we can help resolve it. Our director and principal Shaun Murkett is a member of Institute of Acoustics and has over 20 years' acoustics experience.

TRANTER & ASSOCIATES LLP

**13 Windmill Lane Lichfield
Staffordshire WS137HY
T: 07900214892
W: www.taallp.co.uk
E: nct@taallp.co.uk**

Consulting Engineer with specialisation in the science and engineering of materials and applicable mechanical engineering, in the broader scope of failure investigations. Assisting clients with decisions on breach of policy conditions or terms of warranty, liability, due diligence and recovery. Understanding of material failure mechanisms such as, corrosion (general, localised and failure of corrosion prevention/protection systems), ductile and brittle overload, stress relaxation, fretting, thermal effects on materials, environmentally assisted cracking (stress corrosion cracking, hydrogen embrittlement etc), fatigue, and oxidation.

In-depth knowledge of materials characterisation, by destructive and non-destructive analysis techniques and experience in ad-hoc testing of components. In addition, broad knowledge and experience of historic, modern and state of the art processing, extraction and manufacturing with materials to produce range of systems, equipment and structures, capable to safety critical level applications.

Using this knowledge and ability in practice on road traffic accidents, personal injury investigations, fire investigations, criminal forensic science, marine investigations, contamination and pollution events for dispute resolution and litigation.

**Expert Witness
providing Opinion
and Comment on
illicit drugs**

Incorporating

**The Largest UK Drug
User Survey results.**

CONSUMPTION OF DRUGS

- levels of use among casual and heavy users, from survey data and literature Reviews.

PURCHASING PATTERNS - how and how often drugs are bought, common reasons for purchases to sustain longer-term use, shelf-life, availability

VALUATION OF DRUGS - based on reported prices in our own drug user surveys at different levels of the market, internal police/customs price lists.

PURITIES/POTENCIES - review of forensic/Home Office data, average purities of powders, impurities in tablets, potencies and user-ratings of different cannabis varieties.

PARAPHERNALIA - significance of items seized (or not seized) in inference of intent.

YIELDS OF CANNABIS PLANTS - examination of plants and growing equipment, photographic evidence, diaries or documentary evidence

EFFECTS OF DRUGS - These involve comprehensive reviews of literature on effects of cannabis and other drugs on health and behaviour.

MEDICINAL USE OF CANNABIS - Scientific literature reviews, including historical, political and legal aspects, of cannabinoids are available for a variety of medical conditions

**20 YEARS EXPERIENCE GIVING
EVIDENCE TO THE COURTS**

DRUGS AND DRIVING - Effects of cannabis on driving ability in laboratory, simulator and actual driving situations, road accident statistics, culpability analysis studies.

DRUGS IN THE WORKPLACE - Testing methods, false positives, detection times, effects on performance.

DRUGS AND BEHAVIOUR - Crimes committed under the influence of drugs, effects on aggression of amphetamine, cocaine, steroids, LSD etc. Effects of drugs on fitness for interview (e.g. ecstasy intoxication, heroin withdrawal)

Continued from page 8

Our clients include the Crown Prosecution Service (CPS), Police Authorities and many private solicitors.

We provide opinions for solicitors and the police in a number of different drug related circumstances:

- Involving the administration and effect of prescription and over-the-counter medicines in the young and elderly.
- Driving under the influence of drugs or alcohol.
- The use of illicit drugs.
- Drug assisted sexual or criminal assault.
- Errors in dispensing of prescribed medicines.
- The interpretation of forensic toxicology reports when it relates to drug levels.
- Assessing the results of overdose situations.

Failure of Duty of Care – Structural Engineers

Failures of duty of care of fellow professional structural engineers' reports are provided. Instructions are normally received from the large well known insurance companies, solicitors, the public and from professional indemnity insurers or their brokers. This workload is varied but would typically involve the following:

- Design Failures
- Collapse Investigations
- Construction and Material Defects
- Timber Defects
- Failure of Duty of Care – Building Surveyors
- Survey reports
- Contract Administration
- NHBC

I have been appointed as a single joint Expert and also by claimants' and defendants' instructing solicitors. Upon request, an in depth 'synopsis of cases' undertaken as an Expert, will be forwarded.

Fellow of the Institution of Structural Engineers (A E Wynn Prize)

Member of the Royal Institution of Chartered Surveyors

Member of the Chartered Institute of Arbitrators

Member of the Academy of Experts

E: bob.dean@era.co.uk
W: www.era.co.uk/Services/legal.asp

Experts in mechanical engineering, electrical engineering, metallurgy, electronics and materials, ERA's consultants have many years experience of giving both written and oral evidence for: Public enquiries, Court hearings, Arbitration proceedings and Technical files supporting due diligence. ERA Technology consultants act as experts in both the UK (including Single Joint Experts) and around the world. ERA's independence enables clients to be confident that a professional, confidential, impartial and expert opinion will be provided throughout the dispute process. Our experts are experienced at giving evidence in court; however in many cases our authoritative reports enable our clients to obtain a favourable settlement without going through the court process. ERA Technology provides technical assistance to courts, solicitors and accident investigators.

Expert Witness Services of a Forensic Structural Engineer Chartered Building Surveyor

DAVID BUNKER
Arbitrator & Mediator

Resolving your dispute with professionalism and expertise

David Bunker is a member of the Academy of Experts and is an experienced mediator, arbitrator and a member of the President's Appointments Scheme panel. He is appointed by the Institute of Chartered Accountants to deal with disputes referred to it.

Mediation & Arbitration

Mediation is an informal, confidential process during which an impartial person facilitates discussion and negotiation between the people who are in dispute with a view to helping them reach a mutually acceptable outcome to the conflict. Arbitration is a voluntary process, where the parties agree that an independent third party should act as arbitrator of their legal dispute. The arbitrator's main role is hearing from both parties about the case, before making a decision.

I am able to offer expertise and assistance with a range of alternative dispute resolution techniques. Increasingly, clients and the courts prefer these alternatives to time consuming and costly litigation.

HILTON SHARP CLARKE

30 New Road

HILTON SHARP & CLARKE
Forensic Accountants

E: enquiries@hsc.uk.net or admin@hsc.uk.net

Hilton Sharp & Clarke are one of the few firms of forensic accountants providing a specialist, comprehensive service to IT contractors, as well as consultancy on all aspects of IR35 and employment status.

We have a strong team, serving clients throughout the UK as well as those working overseas, and it is led by a partner with experience and commitment to your industry.

At a time when HM Revenue and Customs are becoming increasingly aggressive it is vital in our view that you use the services of an accountant who is not only a specialist in your industry but also experienced in the wider issues likely to affect you or your company.

Above all, we aim to be friendly, informal and accessible while keeping you on the 'straight and narrow' and saving you time and money.

Our many existing IT contractor clients tell us we achieve this, and all for a competitive fixed fee.

HILTON SHARP & CLARKE Forensic Accountants

for all your forensic accountancy needs ...

- loss of earnings and loss of profit
- loss of pension claims
- business and share valuations
- full Schedules of Special Damage

SRM

Expert Computer Forensics

Digital Media Forensic Investigation

Corporate and Criminal Investigation

Designed to achieve maximum results for Prosecution and Defence in Criminal Cases or in Civil Litigation our first class analysis services are highly respected and valued by the legal fraternity.

Payment Card Industry (PCI) Forensic Investigators (PFI)

SRM were one of the first forensic companies to be internationally appointed by the PCI Security Council as forensic investigators for the Payment Card Industry.

Cyber Crime, Data Breach and Incident Response

Our work in the field of investigating on line theft of credit card data make us uniquely qualified to respond to, investigate, and provide remediation solutions in respect of cyber attacks.

Expert Witness – International Coverage

SRM's forensic laboratories are UK based in Rugby and Newcastle upon Tyne. Our expert witness investigators have a remit to operate internationally.

SRM

SRM provides highly regarded expert computer forensic investigation services and unimpeachable expert witness testimony. Procedures we developed are designed for maximum forensic integrity and combine with our expertise to achieve maximum results for prosecution or defence in criminal cases or in civil litigation.

Our experience includes murder, rape, fraud, blackmail, computer misuse, libel-malicious email, internet pornography and intellectual property theft. Experts are trained in a variety of tools including EnCase®, X-Ways Forensics and Cyber Examiner.

Reports contain precise, jargon-free English, supported by a glossary of terms and appendices covering technical material required by opposing experts.

W: www.orthopaedicsurgeondurham.co.uk.

I am a fully trained consultant orthopaedic surgeon with experience of virtually the full range of musculo-skeletal injuries. Over the last 30 years I have developed a strong interest in neckache, backache and other forms of soft tissue injuries. This includes wide experience of whiplash injuries including attending two 3-day-long symposia and various other meetings on the subject.

I have over many years' experience of medico-legal work and will attend court as necessary.

I see claimants either at my home near Durham or in my rooms in Sunderland. I allocate at least an hour for each interview. I carry out domiciliary visits if necessary.

INSTITUTE OF OCCUPATIONAL MEDICINE

**Tapton Park Innovation Centre
Brimington Road, Tapton
Chesterfield S41 0TZ
T: 01246 557866
E: andy.stelling@iom-world.org
W: www.iom-world.org**

The Institute of Occupational Medicine is a major independent centre of scientific excellence in the fields of occupational and environmental health.

We provide expert witness services in occupational disease caused by exposure to chemical and physical agents, manual handling & workplace accidents.

IOM's experts regularly provide opinion in relation to claims for:

- Occupational diseases caused by exposure to substances deemed hazardous to health, e.g cancer, asthma, silicosis
- Assessment of retrospective exposure to asbestos and determination of the subsequent risk,
- Irritant and Allergic Dermatitis,
- Musculoskeletal disorders,
- Hand Arm Vibration Syndrome and Vibration White Finger.

All of our experts if required, can perform on-site risk assessments and exposure measurements supported by our in-house UKAS accredited laboratory which is equipped to undertake a wide range of sample analyses.

I am a general surgeon with nearly forty years experience specialising in breast disease but other interests include hernia, abdominal disease and minor trauma such as whiplash injuries.

I provide medico-legal reports for Doctors Chambers, Mobile Doctors, Speed Medical Examination Services, Shoosmiths and others. I also provide reports for 25 individual solicitors and a list can be provided.

I can see clients in central London, North London and Guildford and am prepared to travel elsewhere if necessary.

I regularly attend medico-legal updating courses and seminars such as those of Bond Solon and The Expert Witness Institute.

I can send my CV, a sample report and terms by return post or email. Please telephone to discuss a potential case at no charge if you wish.

Graham Rogers is a Consultant Psychologist. In a developing practice, he has been able to access the services of various consultants, including family specialist, neuropsychologists, mental health specialists and those with expertise in the field of autism, able to address the needs of clients. His own work as an expert witness has taken him to the High Court, the Central Criminal Court, as well as to high profile cases. His particular expertise is in relation to those with learning disabilities involved in criminal situations, as well as working with complex family cases. In the area of family work, Graham has introduced his first associate, Julia, with 20 years experience, who began her training at the Maudsley Hospital, before ultimately heading a multidisciplinary team within CAMHS. His second associate, Anne, works within the area of education, able to analyse and assess special educational needs decisions related to children. Since then, the range of experts and specialists available has developed.
